On or about Oct 21, 1875, I purchased of Geo. Reas a one half interest in the Fifty-Quinty claims near the Warner Mine in Boise County, Oregon. The last assessment work I did on said claim was in 1875, and prior to the year 1875 was to the amount and value of $750.00, fifty dollars including necessary supplies. My partner N.M. Storford who owns the other one half interest did not do any work in 1875 and did not provide means for me to furnish my complete work for the year 1875 therefore I discontinued the work and abandoned said claim having done but one half the assessment work for the year 1875.
