DIRECTIONS FOR OPERATING
THE WEST COAST, LOOSE LEAF TYPEWRITER RECORD
IMPROVED STYLE

SOLID PAPER—SHARP TIP BAR

TO UNLOCK—Rotate cover to a vertical position and pull out bottom rod.
TO LOCK—Close the cover and push in bottom rod.

The pointer should always be held in locked position to prevent the covers from coming off.

TO LOCK BOOK PERMANENTLY—This is only to be done when all the sheets are
written on and turned over in the binder for your permanent record. It is absolutely
impossible to unlock or open it.

For this purpose, two permanent locking buttons are provided with each binder. Break
off back of temporary binding bar at point where marked, then insert locking button into
end of slot and turn over in the binder to lock. Thus, the binder is locked with reliable force to
prevent the ends of split halves from splitting and this efficacy and permanency helps and seals the book.

STATE OF OREGON

AFFIDAVIT AND CERTIFICATE

I, GEORGE LITTLE, and I, S. A. WELLS, being severally sworn each for himself says; We, together with one L. J. Hale and Andro Selvey, were the locators of the Huey Long Associated Placer Mining Claim, amended location notice of which appears of record in Volume K, at page 534 of Records of Placer Locations of Baker County, Oregon.

That in making said location we had understood that the lands covered thereby were part of the vacant, unappropriated public domain and subject to location as such.

That neither we nor our associates had any intention of covering or locating upon any ground covered by the prior locations or ground, either patented or unpatented, owned by the Oregon Dredging Company, on or in the vicinity of Clark's Creek, and had we known that such a conflict existed we would not have attempted to locate any of such ground.

That is now developed that all the portion of the Huey Long Associated Placer Mining Claim, which is situated in Section 27, is in conflict with the land held by the Oregon Dredging Company, and particularly with the Western Slope, unpatented, placer mining claim.

We do accordingly certify and declare that neither we nor our associates have of intended to claim any interest in the said lands of the Oregon Dredging Company, and hereby relinquish and waive particularly the said Western Slope placer mining claim, and hereby relinquish and waive any claim therein and thereunto, and we are at this time preparing a second amended location notice of the said Huey Long Associated Claim so as to eliminate said conflicting ground from the location.

That I, the said George Little, was also the locator of the Associated Clyde Placer
Mining Claim, which was also intended to cover certain lands in Section 27, Township 12 South of Range 41 E.W.N.

That said location has never been completed and the location notice thereof has never been recorded for the reason that I learned, before completing the same that the ground intended to be covered by said claim also was subject to prior valid locations on the part of the Oregon Dredging Company, and particularly the said Western Slope placer mining claim, and the Lion placer mining claim, unpatented.

I, therefore, certify and declare that as to said claim also I had no intention of locating ground conflicting with the locations of the Oregon Dredging Company and do hereby relinquish and waive all claim in and to said ground.

That to the best of our knowledge neither of us has made any other location upon ground in that vicinity which would in any way conflict with the locations of the Oregon Dredging Company, but if it should subsequently develop that any such locations have been made we hereby declare that as to such locations also that neither we nor our associates, nor anyone on our behalf had any intention of conflicting with the said locations of the Oregon Dredging Company, and waive any claim thereto and thereto.
