In the image, there is a handwritten page with entries in a ledger format. The entries appear to be names and dates, possibly related to events or transactions. The handwriting is neat, with most entries aligned to the left. The page is divided into two columns, with names and numerical values. The specific details of the entries are not clear due to the handwriting style. The overall layout suggests a record-keeping system, possibly for genealogical or historical purposes.

Gentleman,

J. B. Baker,

In regard to the first letter of my assessment record for the Goldie Claim, it would be impossible to proceed further at the present time due to the lack of available water. If you see fit, I would appreciate your assistance in this matter.

I have also been unable to secure a copy of the record of assessment fees for the past year. I have not been able to contact the Office of the County Clerk regarding this matter. If you have any information, please advise.

I have enclosed $25 for the services of the County Clerk. I trust this fee was sufficient to cover the services.

Please advise me if you have received the papers on this matter.

Sincerely,

Recorded Jan. 21, 1947, by Loyde Redd, Commissioner of Ore.
PROOF OF LABOR FOR FISCAL YEAR 1946-47.
GEORGE W. LANE, ON LANE NO. 1 TO 28 PLACER MINING CLAIMS.

STATE OF OKLAHOMA,  
COUNTY OF TULSA.  

I, George W. Lane, being first duly sworn, on oath depose and say: That I am one of the original locators and co-owners of the mining claims hereinafter mentioned and have been familiar with the mining and prospecting operations and the development work performed thereon from the inception of such locations. I was also the superintendent in charge of the prospecting operations and development work performed upon the ground during the period from July 1, 1946, to July 1, 1947, and have personal knowledge of all the facts herein set forth. I make this proof of labor for the purpose of showing the extent of the labor and improvements performed and made upon the mining claims hereinafter described during said fiscal year, particularly because a portion of said claims was by inadvertence omitted from the suspension notice which I caused to be filed on said claims during the year 1947. This proof of labor is made in order to preserve a formal record of the fact that although as stated a portion of the claims was by inadvertence omitted from the suspension notice the necessary assessment work was in fact done upon all of the claims, particularly including those omitted, during such fiscal year. That none of said claims has either been abandoned or open to relocation at any time.

That the group of claims for which this proof of labor is filed and upon which the labor and improvements hereinafter mentioned were performed and made during said fiscal year from July 1, 1946, to July 1, 1947, are situated along or in the vicinity of Pine Creek, near Hereford, in Township 12 South, Range 39 E. M. will be thoroughly tested and prospected by means thereof. With particular regard to the Lane Nos. 20 to 28, which were by inadvertence omitted from the suspension notice filed during 1947, these claims are situated upon Sections 21, 9 and 16, said Township and Range; a number of shafts have been sunk upon such claims which, taken and considered with the values shown by the prospecting on surrounding ground, definitely develop the ground within that area and tend toward the improvement and development of the said claims in those sections.

That a portion of the labor and improvements hereafter referred to, amounting to much more than $100 for each 160 acre claim, was in fact actually done upon the said claims (the Lane Nos. 20 to 28) situated in said three sections.

In connection with said prospecting program it was necessary to prosecute a detailed survey of the ground in order to locate and plat the various shafts and other excavations so as to conduct the prospecting work in accordance with an orderly plan and preserve a proper and detailed record of it. The value of the work performed from the standpoint of future operations is largely dependent upon the preservation and existence of such record.

That during the period from July 1, 1946, to July 1, 1947, the following expenditures were made in connection with the said prospecting, operation and development work upon said mining claims. The names of the men performing the work and a general statement of the work performed, together with the amounts paid each from time to time is set opposite each name:

That all of said expenditures represent actual labor and improvements performed upon the ground and all of the same are proper expenditures to be considered in connection with annual assessment work or improvements for patent upon each and all of said claims including particularly the said claims (Lane Nos. 20 to 28) so inadvertently omitted from the said 1947 suspension notice. As a matter of fact the above expenditures cover only a part of the expenditures upon said ground and if occasion arise further expenditures could be shown in connection with the said operation and considerably increase the above total.
