To which volume and pages of the public records aforesaid reference is hereby made for a more full and complete description of the said mining claims and of the ground covered thereby.

Reference is made to the proof of labor for the fiscal year 1946-47 filed by George W. Lane upon the said mining claims, for details regarding the status of said claims and the fact that the same are and have been held and worked as one group pursuant to a
program for the common development thereof. That an elaborate prospecting program has been undertaken by the said George W. Lane and his associates for the testing of said ground in connection with which certain expenditures have been made; that a portion of said expenditures are set forth in detail in the said proof of labor filed for 1946-47. That on July 1, 1947, the prospecting and testing operations were in full progress with a substantial crew of men working on the ground; that during the period from July 1, 1947, until August 30, 1947, when the prospecting was suspended for the season, the additional expenditures were made in connection with said prospecting and testing operations which are set forth in detail in the itemized statement furnished to me by George W. Lane and bearing his signature which is attached hereto and by reference thereto made a part hereof; that said itemized statement contains the nature of the work performed, the amount expended for each item thereof and the name of the person performing the same. That all of said expenditures so set forth in said itemized statement represent actual labor and improvements performed upon the ground in connection with the prospecting thereof, and that while as appears from said statement the work was actually done on the west half of Section 22 and the east half of Section 21, the same was performed as a part of a well defined and established testing program ultimately designed to establish the mineral values in and furnish data for the working of all of the claims in said group. That all of said expenditures were and are proper items to be considered as annual assessment work and improvements for patent upon each and all of the claims included in said group and above described. That the said expenditures as listed therein amount to a total of $2824.35, or sufficient to cover the annual assessment work requirements upon each of the 28 claims included in the group; that such expenditures, however, in fact, represent only a part of the work performed upon said ground during the fiscal year. In addition there-
will fully appear from the affidavit of Milton Leon filed herein in connection with the same.

SUBSCRIBED and SWORN TO before me this 29th day of June, 1948.

(BENNETTE by JESSIE M. & ELVIN A. PENROD)

NOTICE IS HEREBY GIVEN, that the undersigned claimants, Jessie M. and Elvin A. Penrod, being both citizens of the United States, over the age of 21 years, and two of the original locators of the mining claim hereinafter mentioned, (the said Jessie M. Penrod having acquired the interest of the remaining original locator) do hereby claim by right of previous discovery and location and this amended location notice, under and in accordance with the revised statutes of the United States, Chapter Six, Title 32 and all subsequent acts supplemental or amendatory thereto and in accordance with the mining laws of the United States and of the State of Oregon, that certain placer mining ground or claim, bearing gold and silver, known and named as the Bennette Placer Mining Claim, and being as amended particularly identified, located and described, as far as possible with reference to the legal sub-divisions of the public survey as follows, to-wit:

The west half of the west half of the southwest quarter of Section 14, in Township 10 South, Range 35, E. W. M. in Baker County, Oregon, containing 40 acres according to the public survey.

The adjoining claims are the Wonder, the Long Race No's 1 and 2 on the west, Channel No. 2 on the north, the Long Race No's 3 and 4 on the east and the Kim on the south. This is the same claim originally located on June 15, 1926, the original location notice thereof appearing of record in Volume J at page 267 of the Records of Placer Locations of Baker County, Oregon.

This amended location notice is made and filed without waiver of any previous rights and fully preserving to the claimants their priority under said previous location and recording in connection.
with the program adopted for readjusting the boundaries of and
eliminating conflicts between the various claims in that area.
As now amended, the location retains the acreage called for by
the original location notice (although less than the maximum
which three original locators would have been entitled to claim)
and corresponds insofar as is possible and with due regard to
the requirements of other adjoining locations, the ground ap-
parently sought to be covered by said original location.

Dated and posted on the ground this 30 day of April, 1949.

SECOND AMENDED LOCATION NOTICE OF PLACER CLAIM
(SUNSET NO. 1, by JESSIE M. and ELVIN A. PENROD)

NOTICE IS HEREBY GIVEN, that the undersigned claimants, Jessie M. Penrod and Elvin A. Penrod, being both citizens of the United States, over the age of 21 years, and two of the original locators of the mining claim hereinafter mentioned, in spite of the ambiguities and discrepancies in spelling hereinafter mentioned, (the said Jessie M. Penrod having acquired the interest of the remaining original locator) do hereby claim by right of previous discovery and location, and this second amended location notice, under and in accordance with the revised statutes of the United States, Chapter Six, Title 32 and all subsequent acts supplemental or amendatory thereto and in accordance with the mining laws of the United States and of the State of Oregon, that certain placer mining ground or claim, bearing gold and silver, known and named as the Sunset No. 1 Placer Mining Claim, and being as amended particularly identified, located and described, with reference to the legal sub-divisions of the public survey as follows, to-wit:

The south half of the southeast quarter of the northeast quarter, the north half of the northeast quarter of the southeast quarter of Section 21, and the southwest quarter of the southwest quarter of the northwest quarter, and the northwest quarter of the northwest quarter of the southwest quarter of Section 22, all in Township 10 South of Range 35\(\frac{1}{4}\), E. W. M., containing 60 acres according to the public survey.

The adjoining claims are the Parkerville No. 2 and the Ancient Channel No. 1 placers on the west, and the Fort Jones Placer on the north. This is the same claim originally located on April 17, 1927, the original location notice thereof appearing of record in Volume J at page 345 of the Records of Placer Location of Baker County, Oregon, and a first amended location notice thereof, dated December 20, 1933, appearing of record in Volume K at page 311 of said Records of Placer Locations.
The undersigned claimants, Jessie M. Penrod and Elvin A. Penrod, do hereby certify and declare that they are in fact the same and identical individuals appearing as two of the original locators of said claim and joining in both said original and last amended location notices; said Elvin A. Penrod is the same party named as E. Penrod on the original and last amended location notices, and the said Jessie M. Penrod is the same person as Jessie Penrod named in said last amended location notice and the same person as J. W. Penrod named in the recorded copy of the original location notice; that such original location notice was prepared in longhand and the recorder in transcribing the same onto the records, apparently mistook the initial "M" for "W" and transcribed it accordingly. There is not and never was any such person as J. W. Penrod joining in the original location of this claim, but the said Jessie M. Penrod, whose initials are J.W. is the party who joined in such original location, together with her deceased husband, A. D. Penrod and her son, the said Elvin or E. Penrod.

This amended location notice is made and filed without waiver of any previous rights and fully preserving to the claimants their priority under said previous location and recording in connection with the program for readjusting the boundaries of and eliminating conflicts between the various claims in that area. This second amended location covers, so far as it is possible, the same and identical ground covered by the last amended location with only such adjustments as necessary to accommodate the boundaries of this claim with the general readjustment program.

AMENDED LOCATION NOTICE OF PLACER CLAIM

(WONDER, by JESSIE M. and ELVIN A. PERNOD)

NOTICE IS HEREBY GIVEN, that the undersigned claimants, Jessie M. Pernod and Elvin A. Pernod, being both citizens of the United States, over the age of 21 years, and two or the original locators of the mining claim hereinafter mentioned (the said Jessie M. Pernod having acquired the interest of the remaining original locators), do hereby claim by right of previous discovery and location and this amended location notice, under and in accordance with the revised statutes of the United States, Chapter Six, Title 32, and all subsequent acts supplemental or amendatory thereto and in accordance with the mining laws of the United States and of the State of Oregon, that certain placer mining ground or claim, bearing gold and silver, known and named as the Wonder Placer Mining Claim, and being as now amended particularly identified, located and described, with reference to the legal subdivisions of the public survey as follows, to-wit:

The south half of the northwest quarter of the southeast quarter, the west half of the northeast quarter of the southeast quarter, the north half of the southwest quarter of the southeast quarter, and the southeast quarter of the southeast quarter of Section 15, in Township 10 South, Range 35½, E. W. M., in Baker County, State of Oregon, containing 100 acres more or less according to the public survey.

This is the same claim originally located on June 15, 1926. The original location notice thereof appearing of record in Volume J, at page 268 of the Records of Placer Locations of Baker County, Oregon, and a second location, or relocation of said claim, (which would presumably be construed as an amendment to the original) is dated August 6, 1938, and appearing of record in Volume L, at page 264 of said Records of Placer Locations. The adjoining claims are the Bennette Placer on the east, Gold Rim Placer on the south and Long Race 1 and 2 the Blue Mountain Channel No. 1, Blue Mountain Channel No. 2 and page 1.
Channel No. 1 Placems of the Dodson Group on the west and north.

This amended location notice is made and filed without waiver of any previous rights and fully preserving to the claimants their priority under said previous locations and recordings in connection with the program adopted for readjusting the boundaries of and eliminating conflicts between the various claims in that area.

As now amended, this claim covers as much as possible of the ground included within both of the prior locations, after making such adjustments as are necessary in order to eliminate conflicts with other adjoining claims and accommodate the boundaries of the various claims in that area with each other. In making this amendment, claimants have, in order to avoid the possibility of controversy, claimed only the acreage included in the second location (100 acres) rather than the maximum of 120 allowable and claimed under the first.

Dated and posted on the ground this 30 day of April, 1949.

To which volume and pages of the public records aforesaid reference is hereby made for a more full and complete description of the said mining claims and of the ground covered thereby.
Reference is made to the recitals of prior proofs of labor for details regarding the status of said claims and the fact that the same are and have been held and worked by one group pursuant to a program for the common development thereof. That as will also appear from the recitals of prior proofs of labor during the years since the claims have been located a detailed elaborate prospecting program has been undertaken and carried out. During the fiscal year from July 1, 1948 to July 1, 1949 this prospecting and sampling program was continued under the direction of Mr. Milton Leon, a mining engineer with offices in Tulsa, Oklahoma. He employed a crew, worked upon said property for several months sampling and testing the same by means of shafts, cuts and similar workings in order to demonstrate the mineral values therein looking toward eventual commencement of mining operations thereon. The said Milton Leon has furnished me a detailed statement of the work performed during such fiscal year certified to by his accountant as correct and such statement is attached hereto, marked Exhibit "A" and by reference thereto made a part hereof. That as will appear from said statement a total of $3182.93 was expended upon said claims for such fiscal year. Such amount being more than the $100.00 requirement for each of the 28 claims in the group. That as will appear from the suspension notice filed by George W. Lane, et al, the owners of said property, the said owners have elected to claim the benefit of the moratorium for the fiscal year 1948-49 and as permitted by the suspension Act (Public Law #107, 81st Congress, approved June 17, 1949) the said owners have elected and do now elect to credit the labor and improvements performed during such fiscal year against the labor and improvements required to be performed or made for the year ending at 12 o'clock Meridian on the 1st day of July, 1950 and the labor and improvements above
mentioned are to be so credited so that the annual labor upon said claims have now been fully performed until the fiscal year beginning at 12 o'clock Meridian July 1, 1950 and ending at 12 o'clock Meridian July 1, 1951.

SUPPLEMENTARY MEMORANDUM AS RIGHTS_OF_WAY

This supplementary memorandum made and entered into this 28th day of April, 1950, by and between Chemical Lime, Inc., an Oregon corporation, as First Party and O. P. Lilley and Anthony Brandenthaler as Second Parties, WITNESSETH:

THAT WHEREAS the parties hereto have heretofore and during the month of August, 1949, entered into a certain mining lease and option covering that certain patented mining claim situated in Baker County, State of Oregon, known as the Monarch Marble placer mining claim, patented, designated by the Surveyor General as Lot number 37 and embracing 20 acres in the west half of the northwest quarter of Section 13 and the east half of the northeast quarter of Section 14, Township 9 South, Range 36, E.W.M., more fully described in said Mining Lease and Option, and,

WHEREAS, there has now been located a certain unpatented placer mining claim known and named as the Monarch Marble Extension No. 1, covering 140 acres of land, entirely surrounding the said Monarch Marble claim and described in the amended location notice thereof as "Lot Numbered 5 and the Southwest Quarter of the Northwest Quarter of Section 13 and Lots Numbered 1 and 2 of Section 14, all in Township 9 South of Range 36, E.W.M." and,

WHEREAS, the parties hereto now desire to provide for appropriate rights of ingress and egress over the said unpatented mining claim in the event the lease and option upon the said Monarch Marble patented claim should be abandoned or terminated so that the possession and control of said patented claim revert back to the First Party.

NOW, THEREFORE, in consideration of the premises and the sum of One Dollar to the Second Parties, in hand paid by First Party, and other good and valuable considerations, it is hereby mutually understood and agreed by and between the parties hereto
as follows:

First, that in the event the said mining lease and option, upon the Monarch Marble placer claim, patented, should be terminated or abandoned at any time prior to payment of the purchase price of the said property in full, so that the right to possession and control of the said patented claim reverts to the First Party, then, that the First Party, its successors and assigns shall have and is hereby granted full rights of way and easements to enter upon, use and occupy such reasonable portion of the said Monarch Marble Extension No. 1, unpatented placer claim, as may be required for all purposes reasonably connected with the mining and quarry operations then being conducted, or to be conducted upon the said patented ground, including the building of roads, the erection of poles, power lines, pipelines, the construction of a camp and other incidental buildings and improvements, the depositing and storing of limestone and other products from the said patented ground, or of waste material and debris therefrom and all other things reasonably necessary or desirable for the efficient operation of the said patented ground and the removal of the limestone and other mineral products therefrom, such rights to continue until all limestones and other minerals upon said patented claim have been exhausted.

Second, the provisions of this agreement shall be deemed a covenant running with the land and shall bind the Second Parties, as the present owners of the said Monarch Marble Extension No. 1, unpatented placer, their heirs and assigns as well as the said claim itself. It is strictly understood and agreed that nothing contained herein shall be construed to require the Second Parties, their heirs or assigns, to maintain the said Monarch Marble Extension No. 1 claim in force for a longer period than they may desire and that the Second Parties and their assigns shall have the right to abandon or relinquish said ground covered by said Monarch Marble Extension No. 1 at any time they may see fit, provided that the Second Parties agree that they shall before either 2.
voluntarily abandoning said claim or rendering the claim liable to
forfeiture for failure to do the annual assessment work thereon, they
will, at least 10 days before accomplishing such voluntary abandon-
ment or before the close of the fiscal year, at the end of which
said claim would lapse for failure to perform the assessment work,
notify the First Party in writing of their intention to so abandon
or relinquish the same in order that the First Party and its offi-
cers may have an opportunity to protect themselves if they so desire
by relocating the said ground.

Third, it is further strictly understood in connection here-
with that Second Parties make no representation or warranty what-
soever as to the validity of the said location upon the unpatented
claim and the rights granted hereunder extend to and cover only
such rights as they may at any time have thereon. If it should be
determined at any time either that the ground covered thereby was
not subject to location or their rights thereto should be divested
by any adverse claimant, it is understood that no liability whatso-
ever would arise hereunder or be charged against the Second Parties,
their heirs or assigns as a result hereof.

Fourth, this agreement shall not be construed to in any respec-
t alter or modify the terms of the said mining lease and option
upon the Monarch Marble patented claim, all of the provisions of which
lease shall be and remain in full force and effect as written.

IN WITNESS WHEREOF, the First Party has caused these presents
to be executed by its duly authorized officers and its corporate seal
to be hereunto affixed pursuant to authority of the board of direct-
ors and the Second Parties have hereunto set their hands and seals
