PROOF OF LABOR FOR FISCAL YEAR 1949-50
(Anthony Brandenthaler on Anthony Numbers 1 to 8 inclusive, Placer Mining Claims)

STATE OF OREGON

I, Anthony Brandenthaler, being first duly sworn on oath
depose and say:

That I am one of the co-locators of the mining claims herein-
after mentioned and have personal knowledge of all the facts
herein set forth with relation to the performance of the labor
and improvements hereinafter set forth. That the claims for which
this proof of labor is filed and upon and for the benefit of which
among other property the labor and improvements hereinafter men-
tioned were performed and made during the fiscal year, beginning at
12 o'clock Meridian, July 1, 1949 and ending at 12 o'clock Meridian

That all of said placer mining claims above described, together
with certain patented lands lying between or adjacent to the said

unpatented claims constitutes one large scale placer mining or dredging operation which is being developed and will be worked by means of one mining plant. That a continuous body or pay streak of placer gravel bearing gold and silver in paying quantities extends through and beneath all of the claims and property included in said project, including specifically the placer claims above described and covered by this proof of labor. That during the period from March 1st to September 15th, 1950, a crew of men has been continuously employed upon the said dredging project, performing actual development work and installing equipment thereon.

That there has been expended during such period at least the sum of $9500.00 in actual mining and development work which has not been paid or has developed the said claims to at least that extent.

That such sum has been actually expended thereon and that the labor and improvements were reasonably worth the sum so expended and are proper expenditures to be considered as annual assessment work and improvements for patents upon the said unpatented claims above designated. Such expenditures constitute much more than the amount required by law for the fiscal year above mentioned, even if annual labor were required upon said claims during such fiscal year, which it is not in view of the fact that all of said claims were located after July 1, 1949. I and my associates however as the holders of said claims file this affidavit for the purpose of preserving formal evidence of the making of said expenditures and ask that the portion of said work performed after July 1, 1949 which of itself amounts to much more than $100.00 per claim should apply upon the assessment work for the coming fiscal year ending July 1, 1951 if and to the extent the same may be required.

That the said placer mining claims above described, together with certain patented lands lying between or adjacent to the said unpatented claims and together with certain other claims recently located and hereinafter mentioned, constitute one large scale placer mining operation which covers several miles of continuous mining land lying along or in the vicinity of Winterville and Bennett Creeks and that a continuous body or pay streak of placer gravel bearing gold and silver in paying quantities, extends through and beneath all of the claims and property in said group of claims above described and covered by this proof of labor.
That all of the mining claims and property included in said mining project and specifically the mining claims above described and all thereof, are now owned by J. R. Dodson and wife and now are and for many years have been held and worked as part of one large placer mining operation. That during such fiscal year as extended and particularly during the period from about July 15, 1950 to date, I and my associates in said operation have, by use of a caterpillar tractor and bulldozer and other equipment and an average crew of three men, been engaged in work upon said property which work has consisted of exposing and blocking out placer gravel, construction and repair of roads upon the property for the cookhouse, working thereof, repair and improvements to cabins and other buildings thereon and also work upon the system of ditches designed to furnish water for the mining and operation of said property and commonly and collectively known as the Pete Mann ditches. That the said expenditures may be itemized as follows:

<table>
<thead>
<tr>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Paid for hire of caterpillar and operators</td>
<td>$2742.06</td>
</tr>
<tr>
<td>Repairs to Scott or Fenrod house</td>
<td>$300.00</td>

<tr>
<td>Improvements and repairs to cookhouse, cabins and other main buildings and ditch work</td>
<td>$1255.00</td>
</tr>
<tr>
<td></td>
<td>$4397.06</td>
</tr>
</tbody>
</table>

That there have also been recently located and added to said group by myself or myself and associates, two further adjacent claims known as the Black Beauty Extension (location notice recorded Volume "P" page 2) and the Winterville No. 2 (location notice recorded Volume "P", page 8, Records of Placer Locations of Baker County. That such claims do not require the performance of assessment work during the current fiscal year but have also been benefited by the work performed since the time of their location.

However, the labor and improvements above mentioned are much more than the amount required by statute to hold each and all of the claims above enumerated and described (which comprise 30 locations in all) during such fiscal year, and the overplus may to the extent needed be applied toward the assessment work requirements for the ensuing fiscal year ending July 1, 1951 as is authorized by said
Congressional enactment. That all of the expenditures above mentioned represent as aforesaid the actual amounts paid therefor and are in addition the fair and reasonable value for said respective expenditures and live items and that the said work so performed and improvements made have tended to and have developed the property to at least the amount set forth and are proper expenditures to be considered as annual assessment work and improvements for patent upon the said mining claims above mentioned and described and all thereof.

Subscribed and sworn to before me this 28th day of September, 1950.

RIGHT OF WAY AGREEMENT

THIS AGREEMENT, made and entered into this 8th day of August, 1946, by and between DORIS BRANDT and GEORGE BRANDT, her husband, acting by and through FRANK DAVIDSON, their attorney in fact, and FRANK DAVIDSON as an individual, all as parties of the first part and hereinafter referred to as first parties, and WALTER C. FELLOWS, as party of the second part and hereinafter referred to as second party,

WITNESSETH:

WHEREAS, first parties are the owners of what is known as the Big Pine Group of quartz mining claims, and what are known as the Granite, Taylor & Olson and Swill Hollow placer mining claims, situated in the north half of Township 9 South of Range 37 E. W. M. in Baker County, Oregon, across which the second party desires to run a power line for the transmission of electrical energy.

NOW, THEREFORE, for and in consideration of the privileges granted herein, it is hereby understood and agreed by and between the parties hereto as follows:

1. First parties hereby give and grant to the second party, his heirs and assigns, the right, privilege and license to construct and maintain a power line for the transmission of electrical energy upon and across the said quartz and placer mining claims, and to erect, maintain and replace such poles as may be necessary for the said transmission line, together with the further right and privilege to enter upon the said mining claims from time to time for the purpose of inspecting and repairing the said line and transporting all equipment that may be required in that regard.

2. As consideration for such privilege, the second party, in return, gives and grants to the first parties the right to connect on to the said transmission line for power in connection with any mining operations or other activities upon the said mining claims. In connection therewith, the first parties agree to make any such
connection in a standard manner, with due regard to the safe and efficient operation of said line and to assume all risk and liability in regards to any such connection.

3. The privilege herein granted by second party unto first parties extends only to the power line and first parties may be required to make independent arrangements with the power company for the purchase and furnishing of electrical energy in connection with such operations.

4. If at any future time it is found that the said power line interferes with dredging operations upon the said mining claims the second party agrees to remove at his own expense any poles that do interfere with mining operations to a point where the same do not interfere therewith; provided that dredging machinery has actually been installed thereon for the working of said ground and such poles are within the dredging area to be worked thereby.

5. This agreement shall run to, be binding upon and inure to the benefit of the parties hereto, their heirs, personal representatives and assigns, respectively, and until the termination hereof shall be construed to be a covenant running with the land. It is expressly understood and agreed that the license herein granted shall terminate when mining operations on the Bald Mountain Mine shall have ceased for a period of one year and upon the termination hereof all poles shall be left in place and become the property of first parties.

IN WITNESS WHEREOF, the parties hereto have hereunto set their hands and seals the day and year first hereinafore written.

That all of said placer mining claims above described, together with certain patented lands lying contiguous to said unpatented claims, constitute one large scale placer mining and dredging operation which is being developed and will be worked by means of one mining plant. That a continuous body of pay streak of exposed lime rock in paying quantities extends through and beneath all of the claims and property included in said project, including specifically the placer claims above described and covered by this proof of labor.

That there has been expended during such period at least the sum of $450 in actual mining and development work which has tended to and has developed
the said claims to at least that extent. That such sum has actually been expended thereon and that the labor and improvements were reasonably worth the sum so expended and are proper expenditures to be considered as annual assessment work and improvements for patents upon the said unpatented claims above designated. That such work has been done and is continuing to be done by use of a No. 7 caterpillar with dozer and crew.

I and my associates file this affidavit for the purpose of preserving formal evidence of the making of necessary expenditures.

That the said placer mining claims above described, together with certain patented lands lying between or adjacent to the said unpatented claims, and together with certain other claims recently located, constitute one large scale placer mining operation which covers several miles of continuous mining land lying along or in the vicinity of Winterville and Bennett Creeks and that a continuous body or pay streak of placer gravel, bearing gold and silver in paying quantities, extends through and beneath all of the claims and property in said group of claims above described and covered by this proof of labor.

That all of the mining claims and property included in said mining project and specifically the mining claims above described and all thereof, are now owned by J. D. Dodson and wife, and are and for many years have been held and worked as part of one large placer mining operation. That during such fiscal year I and my associates in said operation have, by use of a caterpillar tractor and bull dozer, and other equipment, and an average crew of three men, been engaged in work upon said property, which work has consisted of exposing and blocking out placer gravel, construction and repair of roads upon the property for the working thereof, repair and improvements to cabins and cookhouse, and
other buildings thereon, and also upon the system of ditches designed to
furnish water for the mining and operation of said property, and commonly and
collectively known as the Pete Mann Ditches. That the said expenditures may be
itemized as follows:

That in addition to the above, additional work is still being carried on.

That all of the expenditures above mentioned represent, as aforesaid, the
actual amounts paid therefor and are in addition the fair and reasonable value
for said respective items, and that said work so performed and expenditures and
improvements made have tended to and have developed the property to at least
the amount set forth and are proper expenditures to be considered as annual
assessment work and improvements for patent upon the said mining claims above
mentioned and described and all thereof.

That all of said placer mining claims above described, together with certain patented lands lying between or adjacent to the said unpatented claims, constitute one large scale placer mining or dredging operation which is being developed and will be worked by means of one mining plant. That a continuous body or pay streak of placer gravel bearing gold and silver in paying quantities extends through and beneath all of the claims and property included in said project, including specifically the placer claims above described and covered by this proof of labor.
That there has been expended during such period at least the sum of $1950.00 in actual mining and development work which has tended to and has developed the said claims to at least that extent. That such sum has actually been expended thereon and that the labor and improvements were reasonably worth the sum so expended and are proper expenditures to be considered as annual assessment work and improvements for patents upon the said unpatented claims above designated.

I and my associates file this affidavit for the purpose of preserving formal evidence of the making of necessary expenditures.

To which volumes and pages of the public records aforesaid reference is hereby
made for a more full and complete description of the said mining claims and
of the ground covered thereby.

The undersigned, and each and all of them, do jointly and severally desire to
hold the said mining claims above described, and all thereof, under the pro-
visions of the current act of Congress, approved June 17, 1949, providing for the
suspension of annual assessment work on mining claims held by location in the
United States, until the hour of 12 o'clock Meridian July 1, 1952, being 8, 2472
Public Law 107, 81st Congress and this notice is filed for the purpose of
holding said claims, and each and all thereof, during the current fiscal year,
from 12 o'clock Meridian July 1, 1951 to 12 o'clock Meridian, July 1, 1952.

The parties executing this notice do so for the purpose of obtaining the
benefit of said Act as to their respective actual or apparent record interests
in said claims and as to any and all equities, rights or ownership which
they may have in any or all thereof.
Reference is hereby made to the recitals of prior proofs of labor for details regarding the status of said claims and the fact that the same are and have been held and worked as a group, pursuant to a program for the common development thereof.

That, as will also appear from the recitals of prior proofs of labor during the years since the claims have been located, a detailed elaborated prospection program has been undertaken and carried out.

During the year ending July 1, 1951, there was $3,182.96 spent on developing work on the above mentioned placer mining claims, and notice is hereby given that the undersigned hereto have complied with the assessment work required on the above mentioned placer mining claims to cover their rights to hold the same until the fiscal year ending July 1, 1952.

WILLIAMS COUNTY NOTARY PUBLIC OREGON
AMENDED LOCATION NOTICE OF PLACER CLAIM  
(Three Cent No. 1 by Jesse Edwards)

NOTICE IS HEREBY GIVEN that the undersigned claimant, Jesse Edwards, being a citizen of the United States, over the age of 21 years, and the present owner of the mining claim hereinafter mentioned (he having acquired by purchase and conveyance all of the rights of the original locator therein) does hereby claim by right of previous discovery and location, and this amended location notice, under and in accordance with the revised statutes of the United States, Chapter 6, Title 32, and all subsequent acts supplemental or amendatory thereto, and in accordance with the mining laws of the United States and of the State of Oregon, that certain placer mining ground or claim bearing gold, silver and other minerals, known and named as the Three Cent No. 1 Placer Mining Claim, and being as now amended particularly identified, located and described with reference to the legal subdivisions of the public survey as follows, to-wit:

The East half of the Northeast Quarter of the Southeast Quarter of Section 2 in Township 10 South, Range 36, E.W.I. in Baker County, State of Oregon, and being in what is known as Three Cent Gulch about four miles south of the city of Sumpter, containing 20 acres according to the public survey.

This claim is bounded on the north by the Deep Creek Placer, on the west in part by the Silver Fox Placer and in part by unappropriated public domain, on the south by the Three Cent No. 2 Placer and on the east by patented land.

This is the same claim originally located on May 29, 1909, the original location notice thereof appearing of record in Volume I at page 39 of the Records of Placer Locations of Baker County, Oregon. As originally located, this claim was described by metes and bounds, but was actually located upon and intended to cover the legal subdivisions above described. This amended location notice is made and filed without waiver of any previous rights and fully preserving to the claimant his priority under said previous location and recording in order to make the boundaries of said claim conform to the legal subdivisions of the public survey.
Dated and posted on the ground this 16th day of May, 1952.

AMENDED LOCATION NOTICE OF PLACER CLAIM
(Three Cent #2 by Jesse Edwards)

NOTICE IS HEREBY GIVEN that the undersigned claimant, Jesse Edwards, being a citizen of the United States, over the age of 21 years, and the present owner of the mining claim hereinafter mentioned (he having acquired by purchase and conveyance all of the rights of the original locator therein) does hereby claim by right of previous discovery and location, and this amended location notice, under and in accordance with the revised statutes of the United States, Chapter 6, Title 32, and all subsequent acts supplemental or amendatory thereeto, and in accordance with the mining laws of the United States and of the State of Oregon, that certain placer mining ground or claim bearing gold, silver and other minerals, known and named as the Three Cent No. 2 Placer Mining Claim, and being as now amended particularly identified, located and described with reference to the legal subdivisions of the public survey as follows, to wit:

The East half of the Southeast Quarter of the Southeast Quarter of Section 2 in Township 10 South, Range 36, E.W.M. in Baker County, State of Oregon, containing twenty acres according to the public survey and being situated in what is known as Three Cent Gulch about four miles south of the City of Sumpter.

This claim is bounded on the north by the Three Cent No. 1, on the east by patented land and on the south and west so far as claimant is advised by unappropriated public domain.

This is the same claim originally located on May 29, 1909, the original location notice thereof appearing of record in Volume I at page 40 of the Records of Placer Locations of Baker County, Oregon. As originally located, this claim was described by metes and bounds but was actually situated upon and intended to cover the legal subdivisions above described. This amended location notice is made and filed without waiver of any previous rights and fully preserving to the claimant his priority under said previous location and recording in order to make the boundaries of said claim conform to the legal subdivisions of the public survey, and to
correct any errors or ambiguities appearing in the original location notices.

AMENDED LOCATION NOTICE OF PLACER CLAIM
(Deep Creek by Jesse Edwards)

NOTICE IS HEREBY GIVEN that the undersigned claimant,
Jesse Edwards, being a citizen of the United States, over the age of
21 years, and the present owner of the mining claim hereinafter
mentioned, (he having acquired by purchase and conveyance all of the
rights of the original locator therein) does hereby claim by right
of previous discovery and location, and this amended location notice,
dered and in accordance with the revised statutes of the United
States, Chapter 6, Title 32, and all subsequent acts supplemental
or amendatory thereto, and in accordance with the mining laws of
the United States and of the State of Oregon, that certain placer
mining ground or claim bearing gold, silver and other minerals,
known and named as the Deep Creek Placer Mining Claim, and being
as now amended particularly identified, located and described with
reference to the legal subdivisions of the public survey as follows:
to-wit:

The South half of the Southeast Quarter of the Northeast
Quarter of Section 2 in Township 10 South of Range 36,
E.W.M. in Baker County, State of Oregon, containing twenty
acres according to the public survey.

This claim is bounded on the south by the Three
Cents Number One and Silver Fox Placers and on the north in part by
the Hidden Channel as amended. Otherwise the claim is, so far as
claimant is advised, surrounded by unappropriated public domain.
This is the same claim originally located on September 5, 1916, the
original location notice thereof appearing of record in Volume 1,
at page 446 of the Records of Placer Locations of Baker County,
Oregon. As originally located, this Deep Creek claim covered the
northeast quarter of the southeast quarter of the northeast quarter
and the southeast quarter of the southeast quarter of the northeast
quarter of said Section 2, which subdivisions are not contiguous,
but merely corner and the Hidden Channel Placer Claim, which is
adjacent thereto covered the southwest quarter of the southeast
quarter of the northeast quarter and the northeast quarter of the
1.
southwest quarter of the northeast quarter of said Section 2, which subdivisions likewise merely corner. This amended location notice is made and filed without waiver of any previous rights and fully preserving to the claimant his priority under said previous location and recording in connection with the program adopted for readjusting the boundaries of said two claims so as to make both locations contiguous and conform to the requirements of the mining laws and regulations. By means of this amendment and a companion amendment to be made of the Hidden Channel location, ten acres of this claim as originally located (the NW\(\frac{1}{4}\) of the SE\(\frac{1}{4}\) of the NE\(\frac{1}{4}\)) will be eliminated from this location and become part of the Hidden Channel as amended and in the place of such subdivision, ten acres of the Hidden Channel (the SW\(\frac{1}{4}\) of the SE\(\frac{1}{4}\) of the NE\(\frac{1}{4}\)) has been included as part of this claim. In this manner, the legal subdivisions covered by both locations have been made contiguous to each other without in any way changing the exterior boundaries of the ground covered by the two locations.

AMENDED LOCATION NOTICE OF PLACER CLAIM
(Hidden Channel by Jesse Edwards)

NOTICE IS HEREBY GIVEN that the undersigned claimant, Jesse Edwards, being a citizen of the United States, over the age of 21 years, and the present owner of the mining claim hereinafter mentioned (he having acquired by purchase and conveyance all of the rights of the original locator therein) does hereby claim by right of previous discovery and location, and this amended location notice, under and in accordance with the revised statutes of the United States, Chapter 6, Title 32, and all subsequent acts supplemental or amendatory thereto, and in accordance with the mining laws of the United States and of the State of Oregon, that certain placer mining ground or claim bearing gold, silver and other minerals, known and named as the Hidden Channel Placer Mining Claim and being as now amended particularly identified, located and described with reference to the legal subdivisions of the public survey as follows, to-wit:

The Northeast Quarter of the Southwest Quarter of the Northeast Quarter, and the Northwest Quarter of the Southeast quarter of the Northeast Quarter of Section 2 in Township 10 South of Range 36, East of the Willamette Meridian in Baker County, State of Oregon, containing 20 acres according to the public survey.

This claim as amended is bounded on the north in part by the Big Butte Placer and on the south in part by the Deep Creek as amended. Otherwise the claim is surrounded so far as claimant is advised by unappropriated public domain. This is the same claim originally located on October 7, 1916, the original location notice thereof appearing on record in Volume I at page 357 of the Records of Placer Locations of Baker County, Oregon. This amended location notice is made and filed without waiver of any previous rights and fully preserving to the claimant his priority under said previous location and recording in order to correct any typographical errors or ambiguities appearing in the original location notice and in connection with the program adopted for readjusting the boundaries of this claim and the adjacent Deep Creek location so as
to make the legal subdivisions covered by both locations contiguous to each other without in any way disturbing the exterior boundaries of the area covered by the two locations.

AMENDED LOCATION NOTICE OF PLACER CLAIM
(Lone Spring by Jesse Edwards)

NOTICE IS HEREBY GIVEN that the undersigned claimant, Jesse Edwards, being a citizen of the United States, over the age of 21 years, and the present owner of the mining claim hereinafter mentioned, (he having acquired by purchase and conveyance all of the rights of the original locator thereof) does hereby claim by right of previous discovery and location, and this amended location notice, under and in accordance with the revised statutes of the United States, Chapter 6, Title 32, and all subsequent acts supplemental or amendatory thereto, and in accordance with the mining laws of the United States and of the State of Oregon, that certain placer mining ground or claim bearing gold, silver and other minerals, known and named as the Lone Spring Placer Mining Claim, and being as now amended particularly identified, located and described with reference to the legal subdivisions of the public survey as follows, to-wit:

The West half of the Northwest quarter of the northeast quarter (which is more correctly described as the West half of Lot No. 2) of Section 2, in Township 19 South, Range 36, E.W.R., in Baker County, Oregon, containing slightly less than twenty acres (29.39 acres more or less) according to the public survey.

This claim as amended is bounded on the east by the Big Butte Placer and on the north by the Bear Flat Placer. On the west and south it is, so far as claimant is advised, surrounded by unappropriated public domain. This is the same claim originally located on September 5, 1916, the original location notice thereof appearing of record in Volume I, at page 1115, of the Records of Placer Locations of Baker County, Oregon. This claim was always located upon and intended to cover the legal subdivision above described, but by error and inadvertence in preparing the original location notice, the description in such original location reads, "the West half of the Northeast Quarter of the Northeast Quarter of Section 2" instead of the West half of the Northwest quarter of the Northeast Quarter as it should have read. It is evident
however that the subdivisions first above given are the ones intended to be covered because, among other things, the "lone spring" from which this claim gets its name is situated upon the subdivisions first above given and there is no spring whatsoever upon the area inadvertently described in the original location notice, in addition to which, a very substantial portion of the ditch system and other improvements constructed by the former owners, Meadows and Corey and their predecessors, the Shields, were constructed upon the land described by this amended location notice and intended to be covered by said claim, whereas there are no improvements whatever upon the ground so inadvertently and erroneously covered by the description in the original location notice. This amended location notice is made and filed without waiver of any previous rights and fully preserving to the claimant his priority under said previous location and recording in order to correct such error and to make the description of the claim conform to its actual location on the ground.

This claim is bounded on the west by the Lone Spring, on the south by the Hidden Channel as amended, on the north by the Bear Flat and on the east, so far as claimant is advised, by unappropriated public domain. This is the same claim originally located on September 11, 1916, the original location notice thereof appearing of record in Volume I at page 448 of the Records of Placer Locations of Baker County, Oregon. This amended location notice is made and filed without waiver of any previous rights and fully preserving to the claimant his priority under said previous location and recording in order to correct any uncertainties or ambiguities appearing in the original location notice and to more correctly identify and describe said claim with reference to the
legal subdivisions of the public survey.

NOTICE IS HEREBY GIVEN that the undersigned claimant, Jesse Edwards, being a citizen of the United States, over the age of 21 years, and the present owner of the mining claim hereinafter mentioned, (he having acquired by purchase and conveyance all of the rights of the original locator therein) does hereby claim by right of previous discovery and location, and this amended location notice, under and in accordance with the revised statutes of the United States, Chapter 6, Title 32, and all subsequent acts supplemental or amendatory thereto, and in accordance with the mining laws of the United States and of the State of Oregon, that certain placer mining ground or claim bearing gold, silver and other minerals, known and named as the Omaha Placer Mining Claim, and being as now amended particularly identified, located and described with reference to the legal subdivisions of the public survey as follows, to-wit:

The Southwest Quarter of the Southwest Quarter of the Northeast Quarter and the Northwest quarter of the Northwest quarter of the Southeast Quarter of Section 35, in Township 9 South, or Range 36, E.W.M. in Baker County, State of Oregon, containing twenty acres according to the public survey.

The adjoining claims are the Snow Storm on the south and the Sumpter on the west in part. Otherwise the claim is believed surrounded by unappropriated public domain. This is the same claim originally located on the 19th day of January, 1924, the original location notice appearing of record in Volume J at page 162 of the Records of Placer Locations of Baker County, Oregon. This claim was originally located by J.W. Duckworth as one of the Duckworth claims and was supposed to join the Snow Storm previously located by his wife, Lillie B. Duckworth, on the north (the south end of this claim being common with the north end of the Snow Storm) and is so shown upon various old plats. By mistake and inadvertence the locutor of this claim appears to have picked in part the wrong subdivisions. This amended location notice is made and filed without waiver of any previous rights and fully preserving to the claimant his priority under said previous location and recording.
In order to correct said error and preserve the intention of the original locator by keeping this claim contiguous to the Snow Storm.

NOTICE IS HEREBY GIVEN that the undersigned claimant, Jesse Edwards, being a citizen of the United States, over the age of 21 years, and the present owner of the mining claim hereinafter mentioned, (he having acquired by purchase and conveyance all of the rights of the original locator therein) does hereby claim by right of previous discovery and location, and this amended location notice, under and in accordance with the revised statutes of the United States, Chapter 6, Title 32, and all subsequent acts supplemental or amendatory thereto, and in accordance with the mining laws of the United States and of the State of Oregon, that certain placer mining ground or claim bearing gold, silver and other minerals, known and named as the Elkhorn Placer Mining Claim, and being as now amended particularly identified, located and described with reference to the legal subdivisions of the public survey as follows, to-wit:

The Northwest Quarter of the Southwest Quarter of the Southwest Quarter of the Southwest Quarter of Section 26, Township 9 South, Range 36, S.W. in Baker County, State of Oregon, containing twenty acres according to the public survey.

This claim as amended is bounded on the south in part by the Albany and on the north by the Red Bank and Blue Grouse. On the east and west it is believed to be surrounded by unappropriated public domain. This is the same claim originally located on January 19, 1921. The original location notice thereof appears of record in Volume 1 at page 161 of the Records of Placer Locations of Baker County, Oregon. This amended location notice is made and filed without waiver of any previous rights and fully preserving to the claimant his priority under said previous location and recording as part of a program adopted for readjusting the boundaries of this claim and the adjacent Blue Grouse so as to make the same conform to the requirements of the federal mining laws and regulations and at the same time, conform, so far as possible, with the intention of the original locator thereof. As originally located the 1.
two ten acre tracts included in the Blue Grouse do not adjoin each other but merely corner. One of these ten acre parcels (the NE\(\frac{3}{4}\) of the SW\(\frac{3}{4}\) of the SE\(\frac{3}{4}\)) is now included as part of this location in lieu of the NE\(\frac{3}{4}\) of the SE\(\frac{3}{4}\) of the SW\(\frac{3}{4}\) which is believed of less value for mining purposes and has accordingly been left vacant.

This claim as amended is bounded on the north by the Slide Rock Placer, on the west by the Red Bank, on the south in part by the Elkhorn, as amended, and is otherwise believed to be surrounded by unappropriated public domain. This is the same claim originally located on December 6, 1920, the original location notice thereof appearing of record in Volume I at page 627 of the Records of Placer Location of Baker County, Oregon. This amended location notice is made and filed without waiver of any previous rights and fully preserving to the claimant his priority under said previous location and recording in connection with a program adopted for readjusting the boundaries of this claim with the adjoining Elkhorn Placer so as to make the subdivisions covered thereby contiguous.
and conform so far as possible to the intention of the original locator of the two claims. As originally located, the two ten acre subdivisions included in this Blue Grouse location were not adjacent, but merely cornered. One of these ten acre tracts has now been included in the Elkhorn as amended and the remainder is kept as part of this location and claimant has taken in lieu of the other an adjoining ten acres in which an additional discovery of valuable minerals has been made, thereby preserving the same acreage as called for in the original locations and retaining the same ground so far as possible.

That all of said placer mining claims comprising the Corey and Meadows Group are contiguous to each other, lie in one compact body and have been and are held and worked as one placer mining operation, pursuant to a plan or program for the common development, working and operation of all thereof and that the labor and improvements herein specified, although performed upon only a part of the claims included in said group, have tended to and did develop each and all of the claims included therein. That during the said fiscal year development work and mining operations were prosecuted upon the said Corey & Meadows Group as follows:

(a) Tom Hoare, lived upon the property and worked continuously during the period from October 1, 1951 to approximately June 3, 1952. During that period he cleaned out the ditches and made repairs to the spillway and flumes and made repairs to the buildings and other improvements. During the mining season while water was available he actually placered for approximately thirty days during the month of May.

(b) Vern Wilkerson who was upon the property and worked continuously from April 15th until approximately June 1st. He assisted in cleaning out the ditches and working on the spillway and flumes and in the actual mining operations.

(c) I myself made numerous trips to the property, assisted in various of the repair work and other operations being conducted thereon.

That such labor and improvements were of a combined value considerably in excess of $2,300.00, the amount required by law to hold the twenty-three claims in said group above mentioned during such fiscal year and that the said labor and improvements tended to and did improve and develop the property to at least that amount.
That all of said labor and improvements were actually performed upon the mining claims excepting for a portion of the ditch work, and that as regards such ditches, they are improvements designed exclusively to serve and furnish water to the said mining claims and constructed for the development and operation thereof. That all of said labor and improvements were proper items to be considered as annual assessment work or improvements for patent upon each and all of said claims in the said Corry and Meadows Group.

That the said placer mining claims above described, together with certain patented lands lying between or adjacent to the said unpatented claims constitute one large scale placer mining operation which covers several miles of continuous mining land lying along or in the vicinity of Winterville and Bennett Creeks and that a continuous body or pay streak of placer gravel bearing gold, silver and other minerals in paying quantities extends through and beneath all of the claims and properties in said group of claims above described and covered by this proof of labor. That all the mining claims and property above described, excepting only the said Winterville No. 2 and Black Beauty Extension are now owned by Page 2.
J. R. Dodson and wife and now are and for many years have been held and worked as part of one large placer mining operation. That the said Black Beauty Extension and Winterville No. 2 are recent locations lately made and added to the group by myself and associates. That during such fiscal year and particularly during the period from July 30th, 1951 to the month of November, 1951 (when snow and weather conditions forced a shut down) and resuming on about April 1st and continuing up to the present time, I and my associates in said operation have, by the use of an RD7 Caterpillar tractor and other equipment and an average crew of six men, been engaged in work upon said property which work has consisted in repair of ditches, building sluice boxes and the installation of jigs and thereafter in actual placer mining operations. The actual amount expended to date for labor and supplies in said operation amounts to approximately $8,700.00, or much more than the statutory minimum of $100.00 per claim for each and all of the thirty two claims now included in said group and covered by this proof of labor. That the expenditures above mentioned represent the actual amount paid therefor and constitute the fair and reasonable value thereof and that the said work so performed and expenditures and improvements made have tended to and have developed the property to at least said amount of $8,700.00 as above set forth and are proper expenditures to be considered as annual assessment work and improvements for patent thereon.

That although this proof of labor is filed as a precautionary measure upon all the claims, attention is further directed to the fact that as to all of the claims in said group excepting the two recent locations, Winterville No. 2 and Black Beauty Extension, the same have been included in an application for patent therefor which is designated as Mineral Application No. Oregon-02074 and which has been heretofore duly filed and prosecuted in the Oregon Land Office, Bureau of Land Management, United States Department of the Interior, at Portland, Oregon, and that final entry has now been duly and regularly made under such mineral application and Page 3.
The purchase price of said claims duly paid. That the Registrar's final certificate of mineral entry and official receipt for the purchase price appear of record in the Deed Records of Baker County. The certificate of final entry is dated February 21st and the receipt February 1st, 1952. That under the law the obligation to perform annual labor and assessment work ceases when final entry has been made so that no annual labor was in fact required upon said portion of said claims during such fiscal year.

improvements and development work and that the labor and improve-
ments so performed actually tended to and did improve the said
limestone project, including specifically the unpatented claims
covered by this proof of labor, to at least that amount. That the
road upon which a portion of said work was done is a road leading
exclusively to and ending upon the said mining claims and con-
structed exclusively for the working thereof and serving no other
property. That all of said labor and improvements under the
circumstances are proper items to be considered as annual assess-
ment work or improvements for patent upon each and all of said
mining claims.

That the locations listed above are in many cases, in fact amendments of earlier locations bearing the same or other names. That the ground covered by such locations or the greater portion thereof has been held by Warren MacDonald and his associates since 1934. Since that time, although various amendments or relocations have been made under various names, the area in question has been held without interruption by the same group of people. That a detailed study and title analysis will hereafter be made, following which the various claims will be fit into their proper place in the picture and the continuity thereof run down and established. Pending the completion of such analysis, I hereby give notice that all the ground held by Warren MacDonald and his associates is being maintained and kept alive whether included within the description of the above claims or not. That in addition to the above claims, I direct attention specifically to the following early locations which it may develop are not merged in later locations and which may at the end of the chapter be held and maintained as separate individual claims:

That all of the said mining claims comprising the group held by Warren MacDonald and his associates are contiguous to each other and constitute one continuous body of mining ground lying along or in the vicinity of Deer Creek and that a continuous body or pay streak of placer gravel bearing gold, silver and other minerals in paying quantities extends through and beneath said entire group of claims. They now are and for many years have been held and worked as part of one large scale placer mining operation. That all of said claims are as aforesaid owned by the same group of individuals, Warren MacDonald and his associates. That during such fiscal year Page 2.
and particularly the period from July 20, 1951 to June 30th, 1952 (with a seasonable shut-down during the winter months), I and my associates in said Deer Creek Placers have maintained an average crew of three men engaged in development work and mining operations upon the said group of claims. That J. W. Dawson has been employed steadily throughout the operation and that Rimbel Young has also been employed during most of the time. Other employees have been seasonal and/or varying periods. At some times the crew has run as high as eight or nine men. During such period we have spent approximately $12,000.00 exclusive of the purchase of pipe and similar equipment and including labor and materials upon said property. That such work has consisted of building roads, constructing flumes, repairing ditches, installing pipe line and then during approximately two and one half months during the spring of 1952 and up to June 30th, actual placer mining operations have been in progress. That said work has been performed in various places upon the said property and the expenditures above mentioned represent the actual amount paid therefor by the said Deer Creek Placers and constitute the fair and reasonable value thereof and that said work so performed and expenditures and improvements made have tended to and have developed the property to at least said amount of $12,000.00 as above set forth and that all thereof are proper expenditures to be considered as annual assessment work and improvements for patent thereon. Such expenditures as aforesaid amount to a great deal more than the statutory minimum of $100.00 per claim for each and all of the claims included in said group, regardless of how the same may be ultimately named or held, or established.

PROOF OF LABOR FOR FISCAL YEAR 1951-52

(Leslie C. Richards on Butchart Group No. 1, et al, Placer Claims and Idaho, et al, quartz claims - Connooz Creek Group)

STATE OF OREGON

County of Baker

I, Leslie C. Richards, being first duly sworn, on oath depose and say:

That I am a mining engineer employed by Frank Butchart, the owner of the mining claims hereinafter mentioned, and his associates to perform certain engineering, and other work thereon, and have been in charge of the operations hereinafter mentioned upon the mining claims herein described and have personal knowledge of all the facts set forth in this proof of labor. That the claims for which this proof of labor is filed and upon or for the benefit of which the labor and improvements hereinafter mentioned were performed and made during the fiscal year beginning at 12:00 o'clock Meridian, July 1, 1951 and ending at 12:00 o'clock Meridian, July 1, 1952, are that certain group of placer and quartz mining claims commonly known as the Connooz Creek Group and are situated along or in the vicinity of Connooz Creek, a tributary of the Snake River, in Sections 27, 28, 33 and 34, Township 11 South, Range 45, E.W.M. near Home, in Baker County, State of Oregon. That all of said mining claims, both quartz and placer, are contiguous to each other, lie in one compact body and have been and are held and worked as one large mining operation pursuant to a plan or program for the common development and operation of all thereof. That a common deposit of limestone and other minerals extends through the and beneath all of such claims and in some instances placer and lode claims above described overlap and as now advised, it is believed that if and when application for patent is made, the lode claims will probably be declared merged/abandoned and the ground held and appropriated under the placer locations as development work to date would appear to indicate that the deposit is, for the greater part at least, to be properly located and held as placer rather than lode. It is desired, however, to keep all claims, both lode and placer in the group in force at the present time pending the completion of development and prospecting work thereon. That it is proper to do so under the circumstances in view of the fact that all claims

Page 2.
are in common ownership and the development work performed thereon is amply sufficient to cover all locations, both quartz and placer. Reference is made to the original and supplemental proofs of labor for the fiscal year 1950-51 for details regarding the development work performed upon the ground up to October 15, 1951. That during the period between the dates of October 16, 1951 and June 30th, 1952, development work was continued upon the property upon substantially the same scale and by substantially the same crew as shown in the original proof of labor. During such period I have maintained an average crew of five men upon the property including myself. The work has been done at various places upon area included within the the property, largely however, upon the placer claims. The nature and value of the various items of work were generally as follows:

Road work with bulldozer, $880.00 (This portion of the work was done exclusively upon roads designed to provide access to the said mining claims and aid in the development thereof and leading to no other property); Sampling, $161.71; diamond drilling, $8700.65 - Total - $9748.36. That the drilling work was also done as a part of a detailed development and testing program designed to prove out and demonstrate the extent and values of the limestone deposit and that the sums above set forth represent the actual amount paid for labor and improvements by Frank Butchart and his associates and that said labor and improvements tended to and did actually develop the said claims to at least that extent and were reasonably worth the respective amounts above set forth. That all of said expenditures will constitute proper items to be considered as annual assessment work and improvements for patent upon each and all of said claims, both quartz and placer. That the owner of said claims, Mr. Butchart, credit and elects and desires to/claim the benefit of said improvements in excess of the minimum assessment work requirements upon the placer claims so as to qualify the same for patent because it is believed, as stated, that it will probably ultimately be determined that the ground is more properly to be held as placer and patented in that Page 3.
manner and in any event, development work has been done upon the lode claims in previous years to an extent much more than that required for patent purposes.

Subscribed and sworn to before me this 4th day of August, 1952.

AMENDED LOCATION NOTICE OF PLACER CLAIM
(Eisenhower #2 by L. B. Moulton, et al)

NOTICE IS HEREBY GIVEN that the undersigned claimants,
L. B. MOULTON, MARY A. MOULTON, SAVAY C. CORDELL, JOAN L. CORDELL,
ELVA M. LAKEY, CARL HUDDSON, IVAN THOMPSON, and MARY THOMPSON,
being all citizens of the United States, over the age of 21 years,
and the original locators of the mining claim hereinafter mentioned,
do hereby claim by right of previous discovery and location, and
this amended location notice, under and in accordance with the
revised statutes of the United States, Chapter 6, Title 32, and
all subsequent acts supplemental or amendatory thereto, and in
accordance with the mining laws of the United States and of the
State of Oregon, that certain placer mining ground or claim,
containing limestone, building rock and other minerals, known and
named as the Eisenhower #2 Placer Mining Claim, and being as now
amended, particularly identified, located and described, with
reference to the legal subdivisions of the public survey as
follows, to-wit:

The Southwest quarter of the Southwest quarter of
Section 10, the West half of the Northwest quarter
of Section 10, and the Northeast quarter of the
Northeast quarter of Section 10, all in Township 12
South of Range 43, East of the Willamette Meridian, in
no organized mining district in Baker County, Oregon,
containing 160 acres more or less according to the
public survey and being situated approximately one
mile southwest of the Rye Valley Bridge at Nelson
Siding.

This claim, as amended, is bounded on the east in part by
the Eisenhower #1 Placer and on the North and West in part by the
Cutting patented lands, otherwise the claim is believed to be
surrounded entirely by unappropriated public domain. This is the
same claim originally located on May 20, 1933, the original location
notice thereof appearing of record in Volume P at page 589 of the
Records of Placer Locations of Baker County, Oregon. This amended
location notice is made and filed without waiver of any previous
rights and fully preserving to the claimants their priority under
said previous location and recording, in order to correct any
minor errors, discrepancies or omissions appearing in the original
page 1.
Location notice and in order to eliminate from this claim forty acres (the Southeast quarter of the Southeast quarter of Section 9) included within the original location and now determined, upon further investigation, to be patented land and not subject to mineral location, and to include in lieu thereof an additional forty acres (the Southwest quarter of the Northwest quarter of Section 15) into which it has been determined the deposit of limestone and other minerals appropriated hereunder extends, thereby preserving the same acreage as called for in the original location.

Dated and posted on the ground this 12th day of June 1953.

Notice of Location of Placer Claim

Notice is hereby given that the undersigned, Del Dewey, Edward Dewey, Ivan Thompson, Mary Thompson, E. B. Potter, M. E. Burns, J. V. Otter, and H. W. Morrison, being all citizens of the United States, over the age of twenty-one years, have on this day located, under and in accordance with the Revised Statutes, Chapter Six, Title Thirty-two, the following described placer mining ground, viz.: The West half of the Northeast quarter and the Southeast quarter of the Northeast quarter of Section 16, in Township 12 South, of Range 43, East of the Willamette Meridian, containing 120 acres more or less according to the public survey.

Situated in no organized mining district, county of Baker, State of Oregon, and known as the Eisenhower #3 placer mining claim.

And they intend to hold and work said claim as provided by local customs and rules of miners and mining statutes of the United States.

This claim is bounded on the east by the Eisenhower #2 placer and on the north by the Cutting patented lands. On the west and south it is believed surrounded by unappropriated public domain.

The East half of the Southwest quarter and the West half of the Southeast quarter of Section 11 in Township 12 South, Range 49, E.W.M., in no organized mining district in Baker County, State of Oregon, containing 160 acres more or less according to the public survey.

This claim is bounded on the West by the Nelson Nos. 2 and 3 Placers, on the north in part by the Elks patented land, and in part by the Railroad #2 Lode claim, patented, and is otherwise believed surrounded by unappropriated public domain. This is the same claim originally located on May 22, 1953, the original location notice thereof appearing of Record in Volume P at page 593 of the Records of Placer Locations of Baker County, Oregon. This amended location notice is made and filed without waiver of any previous rights and fully preserving to the claimants their priority under said previous location and recording in order to correct any minor errors, discrepancies or omissions. It is clear that this is appearing in the original location notice and to make an association claim located by eight individuals acting either in person or
through their agents and representatives thereunto duly authorized. The previous location, which names all of the locators, but is signed only by "Del Dewey, Agent", is expressly ratified, confirmed and approved as the location of each and all of said eight claimants.
