THIS PATENT STAMP MUST NOT BE COVERED.

DONT FAIL TO FOLLOW THESE DIRECTIONS FOR OPERATING

TO UNLOCK the book, raise cover to be unlocked to a vertical position, and pull rod out as far as it will come.

TO LOCK—Close the cover and push in locking rod.

Do not attempt to unlock either cover unless opposite cover is locked, as posts should always be held in one of the covers.

TO LOCK BOOK PERMANENTLY—This is only to be done when all the sheets are written up and placed in the binder, for once permanently locked, it is impossible to unlock or open it.

For this purpose two permanent locking buttons are furnished. Insert these sealing buttons into the round holes near end of locking case and drive in button with sufficient force to turn the ends of split button. This permanently locks and seals the book.

If desired, the end of locking lever can be broken off where scored with a pair of pliers.

PROOF OF LABOR FOR FISCAL YEAR 1961-62

(State of California, County of Los Angeles)

1. FRANK BUCHART, being first duly sworn on oath deposes and says:

That I am one of the co-owners of the mining claims hereinafter mentioned and have personal knowledge of the facts herein set forth. That the claims for which this proof of labor is filed, and upon or for the benefit of which the labor and improvements hereinafter mentioned were performed and made during the fiscal year beginning at 12:00 o'clock Meridian September 1, 1961, and ending at 12:00 o'clock Meridian September 1, 1962, are that certain group of placer mining claims containing limestone and other minerals commonly known as the Connor Creek Group, and are situated along or in the vicinity of Connor Creek, a tributary of the Snake River, in Sections 27, 28, 33 and 34, Township 11 South, Range 45, E.W.M., and in Section 14, Township 12 South, Range 45, E.W.M., near Hope, in Baker County, State of Oregon.

That the names of said claims and the numbers and pages of the Records of Placer Locations of Baker County, Oregon, where the respective location notices, or amended location notices thereof are recorded, are as follows:

<table>
<thead>
<tr>
<th>NAME OF CLAIM</th>
<th>BOOK</th>
<th>PAGE</th>

</tbody>
</table>
That reference is also made to the proof of labor for the fiscal year 1957-8 appearing of record in Book R at pages 193-7 of said records for details regarding the roads serving such property and its importance to the development and operation of the group.

That during the month of August 1962, work was commenced upon the property by R. P. Wavrick and was in progress thereon on August 31st and continued into September to apply upon the assessment work requirement for such fiscal year. Mr. Wavrick continued work until September 11th when my brother, George M. Buchart, and myself arrived on the ground from California and took over the completion of the work. We paid Mr. Wavrick a total of $105 for the work which he had done up to that time, which was principally upon the roads, until a total of 92 hours had been put in by each of us, or 184 hours all told. That for the reasons set forth in the affidavit of Harold Banta for the fiscal year 1959-60, recorded in Book R, page 753-5 and my own supplemental affidavit for the same year, recorded in Book R at page 1030, we charged $4 per hour each for this work. This is reasonably under the circumstances in view particularly of the fact that we boarded and maintained ourselves on the property, and no travel time was charged. This makes a total of $736 for our work, which was com-

pleted by about September 23rd. This work was done upon the main group of claims exclusive of the Shale Rock Placer, which is separate from the remainder and my remaining balance of which is held as a plant site. As a result the roads on the property are now in better condition than I have ever seen them. On the Shale Rock Placer (now Butchart's Shale Rock balance), the Pedro brothers during the summer, and prior to September 1st, performed $102.69 worth of work with a bulldozer leveling the ground for prospective building and improving the road. This was the actual amount paid then, and that work was also tended to and did improve the property to at least that amount. This makes a total of $943.69 performed upon or for the benefit of such claims and applicable to such fiscal year, which is considerably more than the minimum of $100 worth for each of the nine claims in the group. Except for the personal work of my brother and myself, the other amounts claimed were actually paid for in cash.

PROOF OF LABOR FOR FISCAL YEAR 1962-63

STATE OF CALIFORNIA,

County of Los Angeles.

I, Frank Butchart, being first duly sworn on oath depose and say:

That I am one of the co-owners of the mining claims hereinafter mentioned and have personal knowledge of the facts herein set forth. That the claims for which this proof of labor is filed, and upon or for the benefit of which these labor and improvements hereinafter mentioned were performed and made during the fiscal year beginning at 12:00 o'clock Meridian September 1, 1962, and ending at 12:00 o'clock Meridian September 1, 1963, are that certain group of placer mining claims containing limestone and other minerals commonly known as the Connor Creek Group, and are situated along the east side of the Snake River, in Sections 27, 28, 33 and 34, Township 11 South, Range 45, E.W.M., and in Section 15, Township 12 South, Range 45, E.W.M., near Home, in Baker County, State of Oregon.

That the names of said claims and the volumes and pages of the Records of Placer Locations of Baker County, Oregon, where the respective location notices, or amended location notices thereof are recorded, are as follows:

That reference is made to the proof of labor for the fiscal year 1933-4 appearing on record in Volume 6 at pages 334 to 336 inclusive of said Records of Placer Locations for details regarding the location and continuity of said claims and the program for the common development thereof. That as appears therefrom, all of said claims are contiguous and held as part of one project, excepting only the Shale Rock Placer, which is held as a plant site and is an essential part of the group, and the labor and improvements performed thereon during the current fiscal year and hereinabove mentioned have tended to and did develop all of the claims in such group as above described.

That reference is also made to the proof of labor for the fiscal year 1957-8 appearing on record in Book M at pages 195-7 of said record for details regarding the roads serving said property and its importance to the development and operation of the group.

That during the spring of 1963 and continuing up to June 28, 1963, work was performed upon such property to apply upon the assessment work requirement for such fiscal year. Mr. John T. Coates performed eighty hours of labor at the rate of $1.50 per hour on the Shale Rock claim. Further, my wife, Laura V. Buchart, and myself in a total of 115 hours on the roads and 14½ hours on the Shale Rock Placer. Our work was started on June 12th and continued to June 28th. For the reasons shown in prior proofs of labor, we charged $4.00 per hour for our time. In addition we paid Pedro Brothers $20 for work with their cat on the roads and R. F. Wavrick $40 in cash for his labor thereon. The work performed during such fiscal year is accordingly itemized as follows:

Before the subscriber personally appeared Lloyd E. Sing, mine operator for Robert O'Farrell and W. F. Schraeder and Robert, B. Artist, who being first duly sworn, says that at least $1,000.00 worth of labor or improvements were performed or made upon the claims and mining claim 1-11, both inclusive, as particularly described in the judgment and decree of the Circuit Court for Baker County, Oregon, judgment docket 104 pages 7 and 8, placer claim 4 on page 772 and 775, being situated in Section 16, T. 21, S. B. 25, Township 10 South, Range 25 East, Baker County, State of Oregon, during the year ending September 1, 1963, consisting of the following work performed by Lloyd E. Sing, Frank Lyon, Lillias Lyon and Helen J. Sing, being the removal of at least 300 yards of gravel. That said work and labor involved the use of power tools and fuel, hydraulic equipment, general mining equipment, and installation of works prior to and continuously since September 1, 1963; that all such work and materials developed the mineral deposits upon and within said property generally including, but not limited to, comfits, drifts, shafts, drain holes, other forms of exploratory excavation and actual mining, such labor and improvements were performed upon one or more of said claims and mining claim 1-11, both inclusive, as against the entire mining claim 1-11, both inclusive, as against each other, except where claims were continuous (as against corners) in which event the total operation performed upon each claim as a whole, were performed upon one or more of such contiguous claims. Such expenditures were made by or at the expense of the affiant, as mine operator for Robert O'Farrell, W. F. Schraeder and Robert, B. Artist, upon said claim for the purpose of holding such claim.

later locations, the Lime Mountain Nos. 4 and 5, into one continuous body, and it has been determined that a continuous deposit or body of limestone extends through and beneath the entire area. All claims are now also connected by a common road which extends up Marble Creek, then over the divide down onto the Saboon Creek area. These claims are all now being developed as one unit, and as part of one large-scale limestone mining and processing operation, with the quarry now being located on Marble Creek, and the current quarrying and removal of limestone in progress there, but with the other area being developed for future operations, all at the same treatment plant which is located at the railroad siding near Wingville. During the fiscal year 1962-63, approximately $33,500 was spent in mining and quarrying of limestone on the Marble Creek side, and in diamond drilling and development there. The actual mining and quarrying of limestone was done by Bert Farrar and a crew of nine, using cats, drills, scoops, crushers and the like. About $25,000 was expended in this part of the work. In addition, Fred Cox with a cat and Walter Buchanan with the drills performed about $8,500 worth in the development. On the Lime Mountain claims connecting up and extending over into the Saboon Creek side, at least $22,500 worth of development was completed. This was done by Clyde Golar and crew, Fred Cox, Walter Buchanan and Willie Spriet, with Les Richards doing the mapping and geology, and Bert Farrar assisting in the work. This is general testing and development. In addition, Boyles Bros. and a crew of four did 2,000 feet of diamond drilling at a cost of about $10,000, which is still in progress. This was under the direction and with the assistance of William Johnson, geologist. The amounts expended include the labor for the men and the rental value of Chemical Lime Co. equipment used in the operation, plus the amounts paid for the contract driller. All expenditures made by Chemical Lime Co. The work was prosecuted as in previous years continuously except where winter weather rendered portions of the property inaccessible.

record in Book 0 at pages 337-38, Records of Placer Locations
of Baker County, Oregon, for details regarding the contiguity of said
claims and the fact that one continuous deposit of placer gravel
extends throughout all thereof.

That during the current fiscal year, Joe J. Davis, who
has worked on these claims for a number of years, as appears from
prior proofs of labor, was employed upon the same basis as before,
at the rate of $100 per month. That in addition, during the spring

That the said Frontier Nos. 1 to 4 placer mining claims above described are contiguous to each other and are held and worked in common as part of one large-scale building stone project which is being developed as one operation. That work upon this group of claims during the current fiscal year has consisted as before of actual quarrying, removal and marketing of building stone. The work has been done and the development performed by Stone Center, Inc. of Portland, and the following crew in their employ, who earned the amounts appearing after their respective names:

This claim was, as shown in prior proofs, located for
building stone. Intermittently during the current fiscal year
development work and actual quarrying and removal of stone has
been in progress. The work was done with a catapillar tractor
and truck by Scotty Hayes, Fred Cox and William Peddiatin. The
total amount expended therefor, including rental value of the
equipment, was approximately $775, and the work has tended to
and has developed the said claim to at least that amount. It

channel of the placer gravel underlying the same, and the ownership
and method of working. That during the fiscal year 1962-63, work
was continued upon the property in accordance with the original
development program upon a more extensive scale than even the
preceding year. During the fall of the year, and from September
1st up to the time winter conditions required them to be suspended,
the crew mentioned in the 1961-62 proof of labor continued with
the development work thereon. The washing plant was completed,
and Hobson Brothers and the crew engaged in stripping off over-
burden with cats and carryall. Approximately $8,500 was expended
in that connection, and in addition thereto work was done on the
ditches by William Hays, Fred Cox and others in the amount of
approximately $2,250, or a total during the fall of 1962 of
$10,750. During the spring of 1963 work was resumed as soon as
weather conditions permitted. The crew during 1963 consisted of
William Spriet, William Hays, A. W. Tolsma, Fred Cox, Leo Gyllenberg,
Mr. and Mrs. Virgil Toney, William Parker and A. V. Woodwell.
Actual mining operations, piping and sluicing were conducted upon
a substantial scale, and drilling and prospecting work was under-
taken. The work was done with cats, drills, plants, and the ditches
and water systems were utilized in connection therewith. Approx-
imately $22,500 was expended on the work. The actual placer
operation continued throughout the water season, and the other
general work of prospecting and development work thereafter
and is still in progress. In addition thereto, Hobson Brothers did
development work on their own upon the Black Beauty Extension in
connection with their mining lease thereon, but I have not attempted
to estimate the amount or value thereof. The same situation exists
regarding the status of the said claims as is shown in prior proofs
of labor. These claims are held and maintained as valid, and are
being worked upon a substantial scale.

SUPPLEMENTAL PROOF OF LABOR ON QUARTZ CLAIMS FOR FISCAL YEAR 1963-64

on Helen, et al, Quartz Mining Claims, adjoining or overlapping the Winterville Placer Mine

STATE OF OREGON, )
County of Baker, ) SS.

I, ANTHONY BRANDTENLIER, being first duly sworn on oath depose and say:

That I am the owner, co-owner and operator of the quartz mining claims hereinafter described, which lie adjacent to or in some cases overlap the placer claims constituting what is known as the Winterville Placer Mine, and have been held and worked as part of the same group. That the Winterville Placer Mine as now held comprises, in addition to the said quartz locations, thirty placer mining locations of long standing, plus four additional recent locations later made and added to the group, or thirty-four claims in all, in addition to these lode locations. That as will appear from the separate proof of labor heretofore executed and filed covering the Carranza, et al. placer mining claims, comprising the said Winterville Placer Mine and included in said group, approximately the sum of $36,500 worth of labor, improvements and development work has been performed upon or for the benefit of said mining claims during the fiscal year from September 1, 1963, to September 1, 1964. A considerable portion of this work, amounting in fact to several thousand dollars worth, was of direct benefit to the quartz claims included herein, which are, as stated, adjacent to or in some cases actually overlap the placers.

Reference is made to prior proofs of labor regarding the status of the said quartz locations. That the said quartz claims so referred to and covered by this supplemental proof of labor, and the volumes and pages of the Records of Quartz Locations of Baker County, Oregon, where the respective locations notice thereof are recorded, are as follows:

I, ANTHONY BRANDENTHALER, being first duly sworn, do on oath depon and say:

That I am the owner, co-owner or operator of all the mining claims hereinafter described and have personal knowledge of all the facts set forth herein with relation to the performance of the labor and improvements hereinafter mentioned. That the claims for which this proof of labor is filed and upon or for the benefit of which the labor and improvements hereafter mentioned were performed and made during the fiscal year beginning at 12:00 o'clock Meridian, September 1, 1963, and ending at 12:00 o'clock Meridian, September 1, 1964, are commonly and collectively known as the Winterville and Parkerville Groups (sometimes called the Winterville Placer Mine), situated in Baker County, State of Oregon, and lie along or in the vicinity of Winterville and Bennett Creeks and adjacent streams and gulches, the names of said claims and the volumes and pages of the Records of Placer Locations of Baker County, Oregon, where the respective location notices and/or amended location notices thereof are recorded, being as follows:

channel of the placer gravel underlying the same, and the ownership
and method of working. That during the fiscal year 1963-64, work
was continued upon the property in accordance with the original
development program and upon the same scale as the preceding
year. It has been prosecuted continuously throughout the year so
far as weather, water and other operating conditions permitted,
with a crew of ten men and cook, under the direction of Scotty
Hay and William Tolame as foremen. The work has consisted of
actual mining operations, piping and sluicing, with the usual
maintenance work upon the ditches, and drilling, stripping and
other development and prospecting work upon the channel of pay
gravel. The work was done with a cat, compressor and other
appropriate equipment. Approximately $34,500 was expended on the
work during the present fiscal year. This includes the wages of
the men, rental value of equipment and cost of material and supplies.
The work has tended to and has actually improved the group of
claims to at least that extent. Except for the rental value of
the equipment, it was paid for in cash by myself and associates
in the venture. The same situation exists regarding the status
of the said claims as is shown in prior proofs of labor. Although
patent was previously issued upon only 50 acres of the ground
(40 of the Gleason and 10 of the Parkerville), all claims as
described in the location notices (and/or amendments thereof)
above set forth are held and maintained as valid and are being
worked upon a substantial scale.

PROOF OF LABOR FOR FISCAL YEAR 1963-64
(Anthony Brandenthaler on Moon Mesa No. 1 Placer Claim)

STATE OF OREGON,
County of Baker.

I, ANTHONY BRANDENTHALER, being first duly sworn on oath
depose and say:

That I am one of the co-locators of the mining claim
hereinafter mentioned and have personal knowledge of all the facts
herein set forth. That the claims for which this proof of labor
is filed and upon and for the benefit of which the labor and
improvements hereinafter mentioned were performed and made during
the fiscal year beginning at 12:00 o'clock Meridian, September 1,
1963, and ending at 12:00 o'clock Meridian, September 1, 1964, is
situated near the foot of Dooley Mountain, in Baker County, Oregon,
the name of said claim and the volume and page of the Records of
Placer Locations of Baker County, Oregon, where the location
notice thereof is recorded, being as follows:

NAME OF CLAIM
Moon Mesa No. 1

This claim was, as shown in prior proofs, located for
building stone. During the current fiscal year, principally in
August, 1964, §10 worth of work was performed thereon. The work
was done by Marcel Spriter, John Wright and myself, using a D-6
cat and other appropriate equipment. It consisted of improvements
on the road leading to the claim, and the actual quarrying and
removing of stone. The work has tended to and has developed the
claim to at least the amount above shown, and has been done by or
at the request of the owners. The expenditure includes the labor
of the men and the rental value of the equipment used.

That the said Frontier Nos. 1 to 4 placer mining claims
above described are contiguous to each other and are held and
worked in common as part of one large-scale building stone project
which is being developed as one operation. That work upon this
group of claims during the current fiscal year has consisted as
before of actual quarrying, removal and marketing of building
stone. The work this year was done by Marcel Spriet, Frank Spriet,
Larry Saits, Bob Geddes and Kenneth Miles, using two Caterpillar tractors and other appropriate equipment. The amount expended, including the wages of the men and the rental value of the equipment, was $1,100, the work was done intermittently throughout the year, and was paid for by or on behalf of the owners of the ground.

That reference is made to prior proofs of labor, particularly the proof of labor for fiscal year 1963-64, appearing of record in Book Q at pages 339-8, Records of Placer Locations of Baker County, Oregon, for details regarding the contiguity of said claims and the fact that one continuous deposit of placer gravel extends throughout all thereof.

That during the current fiscal year, Joe J. Davis, who, as indicated in prior proofs of labor, has worked on these claims doing general mining and development work for a number of years,
was employed upon the same basis as before, at the rate of $100 per month. He continued his general development and maintenance work upon the ground, looking toward a time when conditions would be more favorable to the resumption of actual large scale operations. The amount of his salary, or $1,200 per year, is more than the annual labor requirement upon the eight claims involved herein for such year, and has under the circumstances tended to and has developed the said claims to at least that amount. His wages were paid in cash by myself and associates.
