The original Field Notes of survey of the Mining Claim of John O. Ewall, known as the John O. Ewall's Quartz Mine, from which this Plan has been made, have been examined and approved, and are on file in this office. And I further certify that they furnish such an accurate description of said Mining Claim as will, if incorporated into a patent, serve fully to identify the premises, and that such reference is made therein to natural objects and prominent monuments as will permit me and fix the locus thereof. I further certify that the value of the labor and improvements upon the said Mining Claim claimed by the applicant or his grantees, is not less than Five Hundred Dollars, as shown to by the Deputy Surveyor, and that said improvements consist of Tunnels, Stoops and Shafes made in rock.

And I further certify that this is a correct Plot of said Mining Claim or premises, made in conformity with and original Field Notes of survey thereof.

U. S. SURVEY GENERAL'S OFFICE.
PORTLAND, OREGON.
August 29, 1892.
