GEOLOGIC SECTIONS OF THE OREGON KING MINE

VERTICAL SECTION, line A-A' of Fig 13, with limited projection to plane of section (G. L. Ojala, 1963)

Scale in Feet

EXPLANATION

- •- Amethyst
- - - Gouge, shear zone
- - - Brecchia
- Ore

Contact, dashed where inferred or projected

Fault, dashed where inferred or projected; "P" indicates high degree of uncertainty of position

Ore vein or vein with abundant sulfides, dashed where inferred or projected

Stringers or veinlets of ore, or with abundant sulfides

Quartz vein, dashed where inferred or projected

Shaft

Drift, with level designation

SECTION of SHAFT LOOKING EAST (Lobey & Corcoran, 1962, geology by G. L. Ojala, 1963)

0 - 100 Feet
