General

Information: Elevation 1400 ft. aneroid. 1 full claim
located May 7, 1929.

The development work consists of a tunnel
S. 38° W. 36 feet. Country rock and an alter-
ed porphyry, probably andesite which contains
quartz stringers carrying pyrite and free
gold. Steep mountainous topography. Plenty
of timber and water, and an excellent site
for developing water power.
