Douglas County

Name: Douglas Mine (Quartz)

Old Name: Baker Mine.

Owners: Lincoln Smith and Paul Roehl, both deceased. Mr. Robert Smith, a lawyer in Portland, and a brother of Lincoln Smith, has charge of his estate. Mrs. Roehl's widow lives in Grants Pass. Property is under bond and lease to Mr. E. G. Gabriel of 610 N. Capitol, Salem, Oregon.

Location: 9 miles west of Glendale on the north side of Cow Creek in the N.W.1/4 of Sec. 27, T. 32 S., R. 7 W.

Area: 20 acres held by location.

Geology: Country rock meta-gabbro. Fractures are numerous and run in all directions. Gold has been deposited at the intersection of two of these fractures. The cross-cut tunnel cut the intersection that produced the gold. The quartz is bounded by slickensided surfaces along a well defined fracture zone which contains soft altered fault material resembling serpentine. There is about 6 inches of good ore showing in bottom of wintz. No samples were taken in the mine. Difficulties were encountered in making a suitable recovery with the present plant.

Development: The development consists of main adit which runs N. 75° W. 150 ft., drifts, stope and wintz as shown on attached map.

Informant: J. E. Morrison, 6/22/38.
Grants Pass, Oregon

Sample submitted by Mike Wagner Glendale, Oregon

Sample description Finely ground sample containing a small amount of quartz.

Weight: 2 pounds. Size: 1/8th inch and smaller.

The assay results given below are made without charge as provided by Chapter 176, Section 10, Oregon Laws 1937, the sender having complied with the provisions thereof.

NOTICE: The assay results given below are from a sample furnished by the above named person. This department had no part in the taking of the sample and assumes no responsibility, other than the accuracy of the assay of the material as furnished it by the sender.

State Assay Laboratory

Assayer
The law passed by the Legislature, governing the free assaying and analyzing of samples sent to a State Assay Laboratory, provides that certain information be furnished to the Laboratory regarding samples sent for assays, etc. A copy of the law will be found on the back of this blank. Please read the law carefully. Will you please fill in the information called for in the following blank, as far as possible, and return the same to the nearest State Assay Laboratory, along with your sample. If you have made out a blank, this copy is for your future use. Keep a copy of the information on each sample for your own reference.

Your name in full: J. E. Morrison

Postoffice address:

Are you a citizen of Oregon?: Date on which sample is sent: 6/24

Name (or names) of owners of the property: J. Wagner

Name of particular claim and date of location: Douglas Mine

Location of property or source of sample:

(1) County: Douglas
(2) Mining District: Cook Creek
(3) Township: 3 E. 5
(4) Range: 7 W.
(5) Section: 26
(6) Quarter Section: 1/4

How far from passable road?: 1/2 from road

For what do you wish sample tested?: Gold

Does your sample represent a new discovery?: No

On a newly located claim?: No

Has any ore from this claim been milled or shipped?: Yes

Width of ore where sample was taken (length of channel cut): 2-3 ft.

Remarks: The Department would be pleased to have you add to the above, such information as you think would be of interest and value. Use the reverse side of this sheet or a separate sheet. This could best be shown by a pencil sketch, indicating the development on the claim with the widths of vein, especially the width of ore at the place where this sample was taken.

A sample, to be of value, should be taken in an even channel across the vein from wall to wall. Its position in the workings should be marked and the width measured. Assays of unlocated samples, without widths, are of little value. They create but little interest in the minds of experienced investors and engineers.
