Snodgrass Sand & Gravel

Operator & Lessee:  L. H. Snodgrass  
Box 727, 301 3rd Street  
Nyssa, Oregon

Owner:  C. A. Reese, Nyssa

Location:  T 19S; R 47E; about one mile north of Nyssa.

Geology:  Channels and lenses of well sorted fine sands and gravels in the  
Tertiary Lake Beds bordering Snake River.

Development & Equipment:  Conventional dragline equipment including a ½ yard dragline and  
a 3/4 yard Bagley bucket line is used to dig gravel from a pit  
to a trommel. Estimated capacity is about 100 yards/8 hour day  
of about 50-50 sand and gravel, sand being ½" minus and oversize  
to 1½". Equipment includes two 1½ ton (4 yard) trucks and four  
men are normally employed.
Smodgrass Sand and Gravel

Malheur County
Unclassified district

This company is out of business and the pit is now owned and operated by the Strasbaugh Sand and Gravel Company to the reports of which reference is here made.
