Dear Ms. Wolverson:

The State of Oregon received the Calico – Grassy Mountain Areas of Critical Environmental Concern/Research Natural Areas Baseline Report on May 30, 2018.

DOGAMI has reviewed the baseline report for Areas of Critical Environmental Concern/Research Natural Areas and confirm that the baseline information is consistent with the approved baseline data methodologies contained in the approved Environmental Baseline Study Work Plans dated September 22, 2017 (approved by the State of Oregon on December 7, 2017).

Thank you for this information. Please let me know if you have any questions or need additional information.

Sincerely,

Randy Jones
