

DOGAMI – MINED LAND RECLAMATION
229 BROADALBIN STREET SW
ALBANY, OR 97321-2246
(541) 967-2039

GRANT OF LIMITED EXEMPTION CLOSURE PLAN
Under ORS 517.750-990

INSTRUCTIONS & REQUIREMENTS

As per OAR 632-030-0017 sites operating under a Grant of Limited Exemption are required to submit a closure plan to DOGAMI prior to the 2010 annual renewal date. The Closure Plan is unique to surface mine sites which include limited exempt acres. The Closure Plan is specifically designed to document how the site will be stabilized to minimize erosion and off-site sedimentation upon the completion of mining operations.

A complete LE Closure Plan consists of the following:

- (1) The completed LE Closure Plan form.
The closure plan must be signed by the landowner(s) AND by the operator if the operator is different from the landowner(s). "Landowner" means the owner of the surface of the land and, if the mineral estate owner is different from the surface landowner, the owner of the mineral estate.

- (2) A map or maps showing:
 - boundary of the area subject to the limited exemption
 - existing topography
 - final sloping configurations
 - cut slopes
 - fill slopes
 - locations of springs, surface waters, and wetlands
 - existing and proposed stormwater controls
 - areas of revegetation

- (3) A detailed description of:
 - proposed stabilization including sediment control design plans
 - all stockpiles, petroleum products, and any toxic or hazardous substances or materials stored on the site
 - removal of refuse, structures, foundations, abandoned equipment or metal debris
 - how the stockpiles, products, and materials will be managed or removed from the site
 - revegetation measures including a description of:
 - soils
 - seed bed preparation
 - mulching and fertilization
 - plant species
 - seeding or planting rates and timing
 - plan to monitor plant results or replanting if necessary
