15. DESCRIBE PROPOSED OPERATIONS (Use this space for well activities only. See instructions for current well conditions on reverse)

Spud date: 8/16/86 Well Condition: See Attached
Completion date: 10/24/86

This well is temporarily abandoned. GEO requests that the well be allowed to remain open until Spring 1989. A drilling rig and associated equipment will be moved in at that time to drill the deep exploration well. By abandoning N-1 at the same time, the cost and environmental impacts will be minimized.

16. DESCRIBE PROPOSED OPERATIONS (Use this space for all activities other than well work)

(Use reverse side if needed)

17. I hereby certify that the foregoing is true and correct
