Use this form for applications to deepen, rework, abandon, or any other proposed procedure on an existing well.

This form must be submitted unless verbal approval has been given. This application becomes a permit when signed and dated by DOGAMI in the box below.

The present condition of the well, including complete casing record, is as follows:

T.D. 3413'  
E.D. 387' (Cement Plug set from 687'-387')  
9.625", 36#, J-55 ST&C casing from surface - 501'

Following is a detailed account of proposed work

REDRILL

Drill directionally to: 275'W and 175' S. from surface location at measured depth of 2950'. (New TD=3200')

DOGAMI approved August 31, 19 92

A log is required to confirm the cement of production casing is at least 500' above the perforations of the gas zone, or at least 100' above any fluid bearing zone, whichever is higher. The July '87 stipulations are conditions of this permit.
