Use this form for applications to redrill, deepen, rework, abandon, or any other proposed procedure on an existing well.

This form must be submitted unless verbal approval has been given. This application becomes a permit when signed and dated by DOGAMI in the box below.

The present condition of the well, including complete casing record, is as follows:

This is a permitted location and the well has not yet spudded. The purpose of this Miscellaneous Application is to alert the DOGAMI, in advance, that Tenneco may, if necessary, deviate the 24-28 Well.

Following is a detailed account of proposed work:

Plug well back and redrill. Well to be plugged back to 400 feet + and then redrilled to a bottom hole location being 500 feet Easterly, and a true vertical depth of 2,100 feet. The location of the 24-28 redrill would be approximately 750 feet North and 2,750 feet East from the Southwest Corner of Section 28.
