, Sec. **9**

, T. **8S**

R. **5W**

W.B. & M.

Date **June 25, 1956**

Signed **J.P. Thornhill**

Title **Secretary**

(President, Secretary or Agent)

It is of the greatest importance to have a complete history of the well. Use this form in reporting the history of all important operations at the well, together with the dates thereof, prior to the first production. Include in your report such information as size of hole drilled to cementing or landing depth of casings, number of sacks of cement used in the plugging, number of sacks or number of feet of cement drilled out of casing, depth at which cement plugs started, and depth at which hard cement encountered. If the well was dynamited, give date, size, position and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position and results of pumping or bailing.

Date	If plugs or bridges were put in to test for water, state kind of material used, position and results of pumping or bailing.
10/30/55	Set 100' of 8" casing in 10" hole, cemented top to bottom using 35 sacks of construction cement.
11/7/55	Drilled out 25' of cement plug.
11/25/55	Contractor used compressed air in making a drill-stem test at 755'.
12/5/55	A similar test was run at 475'.
"	Bailed down to 600'.
"	Bailed down to 900', let stand for two hours.
12/17/55	Made a drill-stem test at 1080 using compressed air. Shut down operations.
