PLUGGING RECORD

The owner or operator of any oil or gas well or stratigraphic hole shall file this form with the Director of the State of Oregon Department of Geology and Mineral Industries setting forth in detail the method used in plugging such well. The form must be filed within twenty (20) days after plugging for oil and gas wells, or within sixty (60) days for stratigraphic holes.

Rule 1 of rules and regulations adopted pursuant to ORS 520.095 (1) (13) (Chapter 667 OL 1953)

Operator: Leavitt Exploration and Drilling Co. Field: Wildcat

Pool

County: Lane

ADDRESS ALL CORRESPONDENCE CONCERNING THIS FORM TO:

Street: Tate Road
City: Creswell
State: Oregon

Lease Name: Dewey and Duane Leavitt
Well No.: 1
Sec.: 34
T.: 19
R.: 3 w

Date well was plugged: October 25th, 1984

Was the well filled with mud laden fluid, according to regulations of the Board of the State of Oregon Department of Geology and Mineral Industries? The well was filled with cement all the way to the top.

How was the mud applied? Pump thru drill pipe
Were plugs used? No

If so, show all shoulders left for casing, depth of each, and size of casing, size and kind of plugs used, and depths placed. Also amount of cement and rock.

Use additional sheets if necessary.

We used our drill rig and drill pipe to place the cement plug. The casing was at 350', therefore we cleaned the hole out to about 415'. We then pump the cement down the drill pipe. In stages we pump cement then pulled around 5 drill stems at a time. This procedure took place until the cement ran over the surface. Six yards of cement was used in this procedure.

Was notice given, before plugging, to all available adjoining lease and land owners? Yes
