

WELL SUMMARY REPORT
(Submit in duplicate)

API : 003-0001

Operator Dick Lakin Field Nashville Area
Well No. 1 NW1/4 Sec. 31, T 10S, R 7W, WM W. B. & M.
Location 775'S & 450'E from NW corner Elevation above sea level 245' feet
All depth measurements taken from top of _____, which is _____ feet above ground

In compliance with the rules and regulations pursuant to ORS 520 (Chapter 667 OL 1953) the information given herewith is a complete and correct record of the present condition of the well and all work done thereon, so far as can be determined from all available records.

Date 1943 Signed Treasher, 1943
Engineer or Geologist _____ Superintendent _____ Title Geologist
(President, Secretary or Agent)

Commenced drilling 1931 Completed drilling 1931 Drilling tools Cable
Total depth 400' Plugged depth - GEOLOGICAL MARKERS DEPTH
Junk Tree Em. 0-400'

Commenced producing _____ Date _____ Flowing/gas lift/pumping
(cross out unnecessary words)

	Clean oil bbl. per day	Gravity Clean oil	Percent water including emulsion	Gas Mcf. per day	Tubing Pressure	Casing Pressure
Initial production						
Production after 30 days						

CASING RECORD (Present Hole)

Size of casing (A.P.L.)	Depth of shoe	Top of casing	Weight of casing	New or sec- ond hand	Seamless or Lapweld	Grade of casing	Size of hole drilled	No. of sacks of cement	Depth of cement- ing if through perforations

PERFORATIONS

Size of casing	From	To	Size of perforations	Number of rows	Distance between centers	Method of perforations
	ft.	ft.				
	ft.	ft.				
	ft.	ft.				
	ft.	ft.				
	ft.	ft.				

Electrical Log Depths _____ (Attach Copy of Log)

Company, etc.: Lakin, Dick. Also called Koehler, Harry, because Harry Koehler the property in 1938.

Name: (400' well).

Location: Approximately 775 feet S. and 450 feet E. of NW cor. sec. 31, T. 10 S., R. 7 W., in Benton County.

Elevation: 245 feet ±

Year drilled: 1931

Depth: 400 feet

Remarks: Gas struck at unknown depth. Gas analysis: Methane 97.87%, ethane 1.13%, air contamination 1.00%, 1000 B.t.u. Source may be carbonaceous material in Burpee sandstone.

Well was located in a pasture east of the road about 1/4 mile south of the house on the Koehler property. In Willamette Valley about 10 miles from Kings Valley (where gas has been struck and oil reported - see Lowell and Treasher report of 1939). About 0.9 mile north of Nashville, Oregon. Harry Koehler, Nashville, Oregon, bought the place in 1938.

Drilled by Dick Lakin of Eugene in 1931.

Comment - "gas was struck at an unknown depth. Casing still extends above the surface and the well is uncapped. A small amount of gas still issues through the water standing in the hole.

Ref.: Treasher 8/23/43, report conf. file.

Gas analysis:
Methane 97.87%
Ethane 1.13
Air contamination 1.00
Btu 1000

Comment: There is an anticline north of the Koehler property. Gas believed to be from carbonaceous material in Burpee sandstone. Ref.: a reliable source who does not wish to be quoted. RES/VN 8-24-50.
