Submit notices in triplicate before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Department or agent, of the plan submitted.

Drilling location: Umatilla County, Oregon, December 12 1956

Department of Geology and Mineral Industries
Portland, Oregon

Following is a report on the work done and the results obtained notice of intention to do certain work as described below at the Big Red Uranium Company
Company or Operator

John Richartz
Well No. 1 in NW 1/4
Lease
of sec. 24, T. 6N, R. 34, W. B. & M., Wildcat field,
Umatilla County. The dates of this work were as follows:

Notice of intention to do the work was (was not) submitted on form on 19
and approval of the proposed plan was (was not) obtained. (Cross out incorrect words.)

The present condition of the well, including complete casing record, is as follows (Use additional sheets as needed).

Upon the advice of our drilling engineer we find it to be more practical to use 18 inch pipe instead of 20 inch for the first 50 feet of the well. This is based upon the driveability of the 18 inch pipe compared with the 20 inch pipe. The 18 inch pipe with 3/8 inch wall is much more sturdy and will drive more readily. From there for the next 500 feet or more we find it necessary to drop to a 14 inch pipe instead of 16 inch because the 16 inch casing will not fit into the 18 inch.

FOLLOWING IS A COMPLETE DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED PROPOSED WORK
(USE ADDITIONAL SHEETS AS NEEDED)

Last produced
(date) (net oil) (gravity) (cut)

Approved December 13 1956
