Miscellaneous Reports on Wells
(Submit in triplicate)

To comply with Chapter 365 C.L. 1949.
Submit this report in triplicate to the Department of Geology and Mineral Industries or its proper agent within ten days after the work specified is completed.

Indicate nature of report by checking below:

| Report on beginning drilling operations | Report on altering casing |
| Report on repairing well | Report on testing casing shut-off |
| Report on plugging well | Report on redrilling or deepening well |
| Report on making formation test | Report on shooting or chemically treating well |
| Report on making production test | |

Madras, Oregon, Nov. 6th, 1950

Department of Geology and Mineral Industries
Portland, Oregon

Following is a report on the work done and the results obtained under the heading noted above at the

T. W. Love Drilling Co.,
Company or Operator

Wichman
Well No. 1

of Sec. 27, T. 11 south, R 15E. W.M., W.B. & M.
Madras, Oregon

Field, Jefferson County.

The dates of this work were as follows: October 30 and November 6th, 1950.

Notice of intention to do the work (wax seal) was not submitted on form 5 on
and approval of the proposed plan was (wax seal) obtained. (Cross out incorrect words.)

The following is a complete detailed account of work done and results obtained (use additional sheets as needed):

On October 30th, we put fifty sacks of cement in hole at 800 feet, cemented through drill pipe. This plug was to stop any water from below from contaminating any water below surface casing. On November 6th, we put ten sacks of mud weight, a two foot wooden plug, and ten sacks of cement three feet below ground level.
