IF YOU FEEL AN EARTHQUAKE:
• Drop, cover, and hold
• Move immediately inland to higher ground
• Do not wait for an official warning

SI USTED SIENTE EL TEMPLOR:
• Tírese al suelo, cúbrase, y espere
• Diríjase de inmediato a un lugar más alto que el nivel del mar
• No espere por un aviso oficial

OUTSIDE HAZARD AREA: Evacuate to this area for all tsunami warnings or if you feel an earthquake.

LOCAL CASCADIA EARTHQUAKE AND TSUNAMI: Evacuation zone for a local tsunami from an earthquake at the Oregon coast.

DISTANT TSUNAMI: Evacuation zone for a distant tsunami from an earthquake far away from the Oregon coast.

ZONA DE PELIGRO EXTERIOR: Evacúe a esta área para todas las advertencias del maremoto o si usted siente un temblor.

MAREMOTO LOCAL (terremoto de Cascadia): Zona de evacuación para un tsunami local de un temblor cerca de la costa de Oregon.

MAREMOTO DISTANTE: Zona de evacuación para un tsunami distante de un temblor lejos de la costa de Oregon.
If you feel an earthquake, a tsunami may be coming...

WHAT TO DO:
• DROP, COVER, HOLD until the earthquake is over; protect yourself
• MOVE IMMEDIATELY INLAND to high ground and away from low-lying coastal areas
• FOLLOW EVACUATION ROUTE SIGNS
• DO NOT WAIT for an official warning
• DO ON FOOT if at all possible
• DO NOT PACK or delay
• DO NOT RETURN to the beach – large waves may continue to come onshore for several hours
• WAIT for an “all clear” from local emergency officials before returning to low-lying areas

DO NOT RETURN to coastal areas
DO NOT PACK
DO NOT WAIT
FOLLOW EVACUATION ROUTE SIGNS
DROP, COVER, HOLD
DO ON FOOT
BE PREPARED

WHAT TO KNOW about tsunamis
As a series of sea waves, usually caused by displacement of the ocean floor by an undersea earthquake, tsunamis can cause great loss of life and property damage. Recent research suggests that tsunamis have struck the Oregon coast on a regular basis. They can occur anytime, and the warning system is not 100% complete. As a result, it is important to be prepared. This information could save your life – please read it and share it with your family and friends.

TSUNAMI HAZARD ZONE
A local tsunami can occur any time. The only warning you have is the earthquake itself. Evacuate quickly!

WHAT TO DO for both local and distant tsunamis
1. Evacuate on foot, if at all possible.*
2. If you need help evacuating, tie something white (sheet or towel) to the front door knob. Make it large enough to be visible from the street. If the emergency is a distant tsunami, then help may arrive. In the event of a local tsunami, it is unlikely that anyone will help you, so make a plan and be prepared!
3. Go on foot.
4. After the earthquake is over, protect yourself.
5. Bring your family and friends.
6. Please read it and share it with your family and friends.
