This tsunami evacuation zone map was developed by DOGAMI for the purpose of evaluating the most effective means to guide the public in the event of a tsunami evacuation. The map is based on preliminary data and should not be used for site-specific planning. This map adopts recommendations from the Oregon Tsunami Advisory Council. The evacuation routes were developed by local emergency officials and reviewed by the Oregon Department of Emergency Management.

MAP REVISED 6-11-22

**TSUNAMI EVACUATION ROUTE**

**LAKESIDE, OREGON**

**IF YOU FEEL AN EARTHQUAKE:**
- Drop, cover, and hold

The map is based on preliminary data and should not be used for site-specific planning. This map adopts recommendations from the Oregon Tsunami Advisory Council. The evacuation routes were developed by local emergency officials and reviewed by the Oregon Department of Emergency Management.

**MAP REVISED 6-11-22**
If you feel an earthquake, a tsunami may be coming...

WHAT TO DO:
• DROP, COVER, HOLD until the earthquake is over; protect yourself
• MOVE IMMEDIATELY INLAND to high ground and away from low-lying coastal areas
• FOLLOW EVACUATION ROUTE SIGNS
• DO NOT WAIT for an official warning
• GO ON FOOT if at all possible
• DO NOT PACK or delay
• DO NOT RETURN to the beach — large waves may continue to come onshore for several hours
• WAIT for an “all clear” from local emergency officials before returning to low-lying areas

WHAT TO KNOW about Tsunamis:
• Tsunamis are a series of sea waves, usually caused by a displacement of the ocean floor by an undersea earthquake. As tsunamis enter shallow water near land, they increase in height and can cause great loss of life and property damage.
